

Skill: Area Models and Probability

Investigation 2

What Do You Expect?

A spinner is divided into 5 equal sections. You spin the spinner once.

1. Find the probability that the spinner lands on a white section.
2. Find the probability that the spinner lands on a dark section.

A dart is thrown at the game board shown. Notice that the diameters are at right angles and the slices that are congruent. Find each probability.

3. $P(A)$
4. $P(B)$
5. $P(C)$
6. $P(\text{not } A)$
7. $P(\text{not } B)$
8. $P(\text{not } C)$
