ASTHMA SCHOOL MEDICATION PLAN

Emergency Contact Information and Pare		
School Name:	Grade/Rm	University Hospitals —— Rainbow Babies & Children's
Student Name:	Birthdate:	<u>v</u>

Parent / Guardian-1 (name / relationship):		
Phone (H)	Tel (W)	
Parent / Guardian-2 (name / relationship):		Student
Phone (H)	Tel (W)	Photo
Healthcare Provider	Phone:	
Asthma Specialist:	Phone:	
Emergency contact if other than above (name/relationship):		Phone:

Emergency contact if other than above (name/relationship): _____

Diagnosis / Reason for Medication:	Asthma	Other:	
Asthma Triggers to Avoid for student while at school:	Smoke / fumes Mold Spores Other:	Animal Dust Mite	

YES / NO: Student is required to have quick relief asthma medication at school to provide rapid relief of asthma symptoms if needed: cough, chest tightness, wheezing, trouble breathing, shortness of breath

YES / NO: Student is required to use quick relief asthma medication BEFORE gym or other exercise to prevent exercise induced bronchospasm from asthma

YES / NO: Student is required to take daily asthma control medication at school as directed

Medication Information							
Name of	Medication	YES / NO:	Albuterol	Other:			
Form of M	Nedication	Inhaler	Nebulizer	Dry Powder InhalerLiquidPill / Capsule			
Dosage of	of						
Medicatio	n	Number of p	uffs	Other:			
Other ins	tructions:	YES / NO: Inhaler MUST be used with a spacer (valved holding chamber) for administration YES / NO: Please maintain a written record (Log) of all doses: YES / NO					
When to dose	administer	YES / NO: 5-15 minutes before gym, recess, or exercise to prevent exercise induced bronchospasm YES / NO: As needed for FAST RELIEF of chest tightness, shortness of breath, wheezing or prolonged cough or other asthma symptoms. A total of 3 doses can be given within an 8 hour interval YES / NO: Daily at AM / PM for daily asthma control (long term prevention)					
Repeat Dose							
When to call Child's Parent If after 2 consecutive dose				es (2-4 puffs per dose) are given and there is no as please seek further medical attention and call parent			
When to	When to call Child's Physician If you have concerns or questions about the student's medication or disease						
The steps to •Activate th system in y	Emergency that should be take e emergency m your area. Call ht/Guardian and Provider	nedical 911.	The following are possible signs of an asthma emergency: •Difficulty breathing, walking, or talking •Blue or gray discoloration of the lips or fingernails •Failure of medication to reduce worsening symptoms.				

Supervision of Medication	 Student is permitted to carry medication and self-administer with no supervision Student MAY self-administer medication BUT supervision is required for all doses Student requires trained assistance to administer all doses 					
Expected Normal side effects:	Fast heartbeat, tremor, hyper-activity		Other:			
Storage Requirements	N	one	Refrigerate			Other
START Date to begin Medication		Wher	n school receives	form	Other:	
STOP Date to discontinue Medication		End o	of school year		Other:	
Instructions for proper use of medicine are attachedYESNO						

PLEASE COMPLETE SECTION BELOW FOR STUDENT PERMISSION TO CARRY INHALER

Authorization (In accordance with ORC 3313.716/3313.14)

Who keeps the bronchodilator inhaler at school?

School policy restricting possession of medication by students is insufficient grounds for preventing students with sufficient maturity from retaining possession of their bronchodilator inhaler. Such policies, when enforced, delay appropriate treatment and restrict activities unnecessarily. The decision regarding sufficient maturity of the student to be responsible for appropriate inhaler use is an individual one to be made by the parents in consultation with their physician. The inhalers pose no abuse potential or other danger to classmates. While restrictions on bronchodilator inhaler possession may be necessary for the youngest students, it constitutes unreasonable interference with the student's medical care for school personnel to unilaterally restrict possession of bronchodilator inhalers by students judged by parents and physician to have sufficient maturity to use the device appropriately. Possession of the bronchodilator inhaler by the student also promotes earlier use that decreases the risk of requiring emergency care from rapidly progressive asthma, which on rare occasion can cause hypoxia, brain damage, and death. Discussion among parents, physician, and school personnel can determine whether school-supervised administration would improve or deter compliance.

Please check if STUDENT is permitted by healthcare provider to CARRY an inhaler and SELF-MEDICATE at school.

Student Agreement and Signature:

I,	, agree that I will:
Never allow another student to use my medication.	
Keep my medication with me at all times.	
Go to the School Clinic, accompanied by someone, when I used	my rescue inhaler and continue to have symptoms.
Follow school policy and my medical provider's instructions as	outlined in my Asthma Medication Plan.
