

Weekly Snapshot

May 18th-22nd, 2015

Reading

Vocabulary

Life cycle	organism
Life span	habitat
Mimicry	hibernation migrate

This week in reading we will continue our study of Life Science. Students will continue to read nonfiction texts and practice comprehension skills. We will learn about animal life cycles. Students will take notes for their animal research reports. They will begin drafting their paragraphs and writing their final report. Next week students will create a presentation about their animal to share with the class.

Fundations

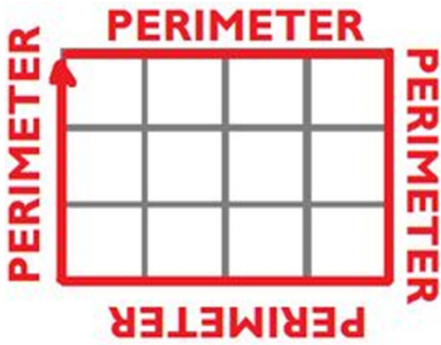

This week we will begin our study of Unit 14. This is the final unit for Fundations this year. Students will not be tested over the material; however, we will practice new concepts in class. Your child will learn about the patterns -ture, -tu-, -ci-, and -ti-. We will also discuss advanced suffixes such as, -al, -an, -er, -ous, and -ent. We will not take a test over these new concepts in class. I have included some words to know.

Words to Know:

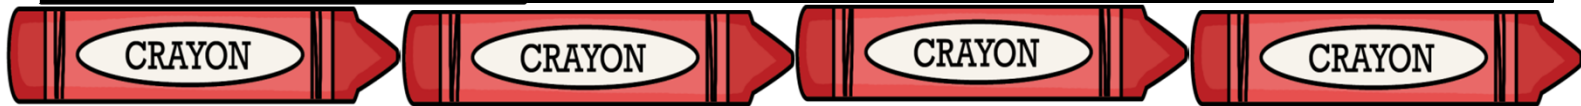

stationary	stationery	eight
ate	pasture	actual
spatula	moisture	actually
picture	creature	furniture
fortune	congratulated	
punctuate	temperature	

Math

This week in math we will complete Unit 13. Students will review geometry concepts (quadrilaterals, polygon, parallel sides, and right angles). We will review perimeter and area concepts this week as well. Students will gain understanding about how shapes can have the same area but a different perimeter. We will take our Unit 13 assessment on Friday in class. I will send home a study guide for students to complete for homework.

Mon. Music	Tues. Computer	Weds. Art	Thurs. Library	Fri. Gym
Read Foundations (Fri) Math HW Page	Read Foundations (Fri) Math Study Guide	Read Foundations (Fri) Math Study Guide Study Science	Read Foundations (Fri) Math Study Guide	Read STARS Chart

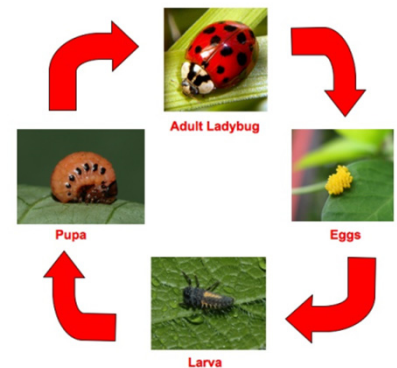

Science/Social Studies:

This week in class we will continue to combine our reading with Science. Students will learn about life cycles and plants during this week. We will take an assessment over Science concepts in class on Thursday. I will send home a study guide and student notes on Wednesday night so they can study.

Life Cycle of a Ladybug
