Mapping Out Our Week

Reading: Reading Workshop

In reading, we will be working on identifying the main idea and supporting details. We will be focusing on all expository text to support these skills. We will also be talking about specific text features and how they help us better comprehend non-fiction literature.

Writing: Writing Workshop

This week, students will be working on learning how to narrow down a topic for research. We will be figuring out ways to take a general area of interest and focus on specific concepts. We will be starting with how-to pieces so students will be the experts in their writing.

Math: Unit 7 – Multiplication/Division

Students will be working on the relationship between multiplication and division. We will also be concentrating on missing variables as students continue to explore basic algebra.

Social Studies: Rules and Laws

In social studies, we will be learning about rules and laws. We will be talking about why they are necessary and how they make our community a better place. We will also be talking about how our home, school, and community would function with the absence of rules.
