Marbling Paper at Rocky River High School

ROCKY RIVER CITY SCHOOL DISTRICT
Cuyahoga County, Ohio

December 22, 2015

To the Board of Education, residents of the Rocky River City School District and other interested parties:

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) of the Rocky River City School District (the “District”) for the fiscal year ended June 30, 2015. This CAFR, which includes financial statements and other financial and statistical data, conforms to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental entities. Responsibility for both the accuracy of the data presented, and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the District. All disclosures necessary to enable the reader to gain an understanding of the District’s financial activities have been included.

The report provides the taxpayers of the District, bond rating agencies and other interested parties with comprehensive financial information, enabling them to gain a clear understanding of the District’s finances. This report is intended to contribute to meeting the accountability requirements of the public. Copies will be distributed to all school buildings, the Rocky River Public Library, the Rocky River Chamber of Commerce, rating agencies and other interested organizations. Copies will be made available to all residents of the District or any other interested party through the District’s web site at www.rrcs.org.

The District

History¹

The District has a long and rich tradition of academic excellence by providing a plethora of educational opportunities to its students. Early settlers in what is now Rocky River realized the importance of education for their children. The first grammar school in the area was built around 1840 at the corner of Wagar and Detroit Roads. The next schoolhouse, a one-room red brick structure, held eight grades and was built around 1890 at the northeast corner of Center Ridge and Northview Roads.

Rocky River’s first high school was organized in 1892 at the site of the old Wooster School on Wooster Road. Five students graduated in 1897, the first graduating class. On January 7, 1919, a new high school at the corner of Lakeview and Riverview Avenues was opened with an enrollment of 45 students. The current high school was built in 1950 and completed and opened for students in 1951 and has been improved and updated periodically over the years. The District’s most recently built school building is the current middle school that was finished and opened to students in 2000.

Current Organization

The District is governed by the Constitution of the State of Ohio and various statutes enacted by the Ohio General Assembly through the State Department of Education. Under Ohio law, the District is a separate and distinct unit of government with its own taxing authority. The Rocky River Board of Education is a five member board, elected at large, with staggered four year terms.

¹McCauley, Ann. Rocky River...Timeless. The Rocky River Library Foundation, 2002

The District is located in a suburban area west of Cleveland, Ohio and encompasses the entire City of Rocky River and a small portion of the City of Fairview Park. The property tax base is primarily residential with a significant amount of retail commercial property. The District serves 2,770 students ranging from Kindergarten through Twelfth Grade. In addition, a wide range of services are provided for preschool-aged children and adults.

The Reporting Entity

The District has reviewed its reporting entity definition in order to insure conformance with the Government Accounting Standards Board Statement No. 14, "The Financial Reporting Entity" as amended by GASB Statement No. 39, "Determining Whether Certain Organizations Are Component Units" and GASB Statement No. 61, "The Financial Reporting Entity: Omnibus an Amendment of GASB Statements No. 14 and No. 34". In evaluating how to define the District for financial reporting purposes, management has considered all agencies, departments and organizations making up the District (the primary government) and its potential component units. The District has no component units and the District is not a component unit of any other governmental organization.

The District is associated with the North Coast Council and the Ohio Schools Council Association, both jointly governed organizations; the Suburban Health Consortium and the Ohio Schools' Council Workers' Compensation Group Rating Program, both insurance purchasing pools; and the Rocky River Public Library, a related organization.

Demographics, Economic Condition and Outlook²

The 2010 U.S. Census data reports a population of 20,213 (2014 estimate is 20,433) in the City of Rocky River with 10,181 housing units. The 2007 business census reports a total of 1,987 businesses within the City. The median household income is \$66,337 (year 2012 data) and the per capita income is \$41,207 (year 2010 data). The median home value is \$207,200 (year 2010 data). In 2005, the average sale price for a single family home was \$288,506 with 65 days on the market. As of July 2015, there were a total of 25 homes listed for sale with the least expensive home listed at \$25,000 and the most expensive listed at \$2,190,000. For the month of July 2015, there were 58 homes that sold with an average sale price of \$207,864 (lowest at \$26,500 and highest at \$740,000) with an average of 64 days on the market. The housing price trend in Rocky River as of July 2015 was considered stable.

Per the 2010 U.S. Census, the median age for residents of Rocky River is 43.5 and families (non-single residences) represent 56.5% of the population. The racial makeup of the city was 95.5% White, 1.0% African American, 0.1% Native American, 1.8% Asian, and 1.6% from other races. Hispanic or Latino of any race was 1.8% of the population.

Per the 2010-2014 American Community Survey 5-Year Estimates, there were 8,822 households out of which 23.5% had their own children under the age of 18 living with them, 47.6% were married couples living together, 7.4% had a female householder with no husband present, and 43.0% were single/non-family households. 24.1% of the households were made up of at least one individual under 18 years of age and 39.5% was made up of at least one individual 65 years of age or older. The average household size was 2.26 and the average family size was 3.10. In the city, the population was spread amongst age groupings with 23.7% under the age of 20, 3.0% from 20 to 24, 10.1% from 25 to 34, 11.8% from 35 to 44, 14.3% from 45 to 54, 13.1% from 55 – 64 and 24.0% who were 65 years of age or older.

²Primary sources of data used for this section are http://realtymtimes.com/rtmcrloc/Ohio~Rocky_River, http://factfinder2.census.gov/faces/nav/jsf/pages/community_facts.xhtml and <http://quickfacts.census.gov/qfd/states/39/3968056.html>

Additionally, the City had an employed civilian population ages 16 years and over of 9,769 with the occupational makeup being 56.9% management, business, science, and arts occupations, 12.2% Service occupations, 22.3% Sales and office occupations, 2.9% Natural resources, construction, and maintenance occupations, and 5.7% Production, transportation, and material moving occupations. Of the population 25 years of age or older, over 55.3% have at least a bachelor's degree. Businesses within the community are predominantly retail and service oriented.

The District receives almost 75% of its governmental fund revenues from local property tax collections. Therefore, the long-term financial health of the District is very dependent on its tax base. The total assessed valuation of the District's tax duplicate has risen 5% over the last ten years. The increased value in the tax duplicate is due primarily to revisions in property values made by the County Auditor every three years as well as some new construction, although assessed values have decreased in more recent years due to the elimination of tangible personal property values from the tax duplicate as well as an overall reduction based on the triennial property update that took effect for collection year 2010. However, recent data based largely on the most recent triennial property update released in December of 2015 is showing an increase of 9% over the January 2015 values for tax year 2015/collection year 2016.

The City of Rocky River is almost completely developed, so future assessed valuation increases will come primarily from property value changes. There may also be some growth from the demolition of existing commercial and residential building stock and the subsequent redevelopment of such property, as this is becoming increasingly common in fully-developed suburban areas like Rocky River. There are no major manufacturing plants located within the District's boundaries. In terms of assessed dollar value, the largest real property taxpayer owns approximately 2.18% of the total assessed valuation within the District.

Major Initiatives - Fiscal Year 2015

During fiscal year 2015, the District continued working towards the goals as outlined in the District's Strategic Plan that was adopted in fiscal 2009. This strategic plan outlines actions designed to achieve desired outcomes. It is a statement of the Rocky River City School District's mission, beliefs, and goals. It defines what we as a community envision for the future of our schools, and details objectives and strategies to guide us on our journey. Approved by the Board of Education on June 25, 2009, this Plan is meant to serve as the compass by which the District will chart its course for the next ten years. As the 2014-15 school year was the mid-point of the ten year strategic plan lifecycle, the District undertook a comprehensive update process to realign and adjust the functional strategic area results that will be achieved by 2019. The Strategic Plan, as adopted and amended, is as follows:

BELIEFS

We believe ...

- Students are the heart of our purpose.
- Student success requires a partnership among family, school and community.
- A Rocky River education empowers values, inspires curiosity and encourages talents that lead to success.
- High expectations lead to high achievement.
- Lifelong learners thrive as they embrace the changing global society.

An exceptional school district demonstrates all of the above.

STRATEGIC OBJECTIVES

- All students will engage in contemporary, globally competitive curricular and co-curricular programs of excellence.
- All students will achieve their educational goals incorporating the highest international standards.
- All students will participate in a student-centered environment that addresses educational, social and emotional needs.
- All students will learn through lessons and experience that communication is open, sincere, timely and responsive.
- All students will attend schools that are state-of-the art facilities.
- All students will learn in an environment that is technologically competitive on a global level.

COMMUNICATIONS

Proactively share comprehensive and timely information with all stakeholders about updates on progress in achieving our mission and the opportunities that our school district provides

- The District website is the primary source of information about District events/accomplishments and curricular/extracurricular opportunities for students.
- Relevant safety and security information is provided to stakeholders in a timely fashion.
- Legislative information that may impact the District on a local, state, or federal level is communicated to stakeholders.
- Updates on the progress and status of achieving the District's strategic objectives and mission are accessible to stakeholders.

CURRICULUM and CO-CURRICULUM

Develop and implement 21st century curricula, support systems, and co-curricular programming to ensure the highest expectations of excellence in an increasingly interconnected world.

- Career pathways are illuminated and explored enabling students to succeed as independent, self-sufficient citizens in a dynamic world.
- Students understand their learning process and their progress, and necessary data are communicated and used to facilitate each child's growth and development.
- Students are self-aware and socially and emotionally prepared to persevere in an interconnected and competitive world.
- Students understand, and are contributing participants in, a diverse, global setting.
- Curricula, instruction and assessment are aligned and articulated, and prepare students for the rigors of the 21st century global economy.

FACILITIES

Continue to improve and maintain facilities that meet our mission.

- School buildings and grounds use creative strategies to promote community and foster student interaction.
- District facilities continue to enhance exemplary curricular and co-curricular opportunities for all students.
- A facilities master plan provides a blueprint for buildings and systems that support student success, and enhance campus safety and accessibility.
- The facilities master plan uses nontraditional funding sources and maximizes operational efficiencies.

FINANCE

Provide traditional and nontraditional fiscal resources and efficiencies to meet our mission of excellence to support the other strategies.

- Feasible alternative revenue streams supplement traditional funding sources.
- Operational efficiencies and cost-containment measures are instituted, based on industry standards and benchmarks, to optimize resources for District programs.
- Multiple channels are used to inform the community about the District's financial status and the Ohio school finance environment.
- Accelerated funding of the District's cash reserves ensures financial stability, observes internal benchmarks and avoids detrimental impact to educational outcomes.
- A dedicated revenue stream is established to sufficiently provide for maintenance and improvement of the District's capital assets.

HUMAN RESOURCES

Recruit, hire and retain exceptional staff to accomplish our mission.

- A comprehensive approach is in place, includes stakeholders, and assures the District continues to attract, hire and retain exceptional employees.
- Administrators research, promote and communicate available, pertinent professional development opportunities for employees.
- Opportunities are offered to enhance relationships between district employees.
- Wellness programs promote improved health among all members of the Rocky River City School District.
- Human Resource operations are efficient, cost effective and sustainable.

TECHNOLOGY

Maximize the utilization and implementation of current technology to provide the students and staff training necessary to support achievement of our mission and strategic objectives.

- Technological literacy is expected and promoted throughout the District to deploy and utilize resources in an effective, consistent and coordinated manner.
- The technology architecture is proactively maintained and enhanced to support operations of the District.
- All students have appropriate and readily available access and opportunity to use technology, and are empowered to be responsible digital citizens.
- Students have the resources necessary to develop the current technology skills required for college and career readiness.
- Technology enhances the safety and security of students and staff.

Goals for 2016

One of the primary goals for 2016 is to continue the implementation components of the aforementioned Strategic Plan to address the realigned and updated results for the functional strategic areas.

In addition to this goal, the following financial goals will be addressed:

- To effectively use District resources to assure the highest quality educational program while attempting to meet the District's revised financial plan. This includes continually working towards successfully managing funds that will be generated from the additional 4.9 mill property tax levy that was passed in November of 2012 to support the District's programming by providing financial stability through at least fiscal year 2016. This will include prioritizing curricular needs such as all-day kindergarten, expansion of course offerings such as world language, career tech education and an increased emphasis on college preparation, amongst other programmatic improvements. This will be accomplished by carefully developing, monitoring and adjusting short-term and long-term financial projections and expenditures based on educational needs and objectives and attempting to anticipate and react to various outside factors such as state funding changes and major cost drivers.
- To continue to educate the electorate of the District on the District's financial situation and its impact on the future prosperity and financial stability of the District; to communicate the District's dependence on local taxpayer support and current issues with the state funding.
- To receive the GFOA Certificate of Achievement for Excellence in Financial Reporting for this fiscal year 2015 CAFR.
- To continue to assure that the District's property tax base remains strong and stable by working through economic issues with city and county governments, the business community and individual property owners.
- To continue to effectively and efficiently utilize and maintain District facilities that were substantially improved with the \$42.9 million bond issue that was approved by the voters in May 2010 as part of the District's Master Plan for facilities. This goal will include the development and implementation of a five-year capital plan that will be used as the roadmap to reach this goal.

Financial Policies Impacting the Financial Statements

The Board of Education approved the District's Ten-Year Strategic Plan (the "Plan") in fiscal year 2009 and updated components of the plan in 2015. The Plan (goals of which are described above) serves as a roadmap for allocating resources to achieve desired outcomes. The District recently completed all significant improvements called for under the comprehensive Facilities Master Plan as outlined in the Plan, developed to ensure the cost-effective use of facilities consistent with its educational programs. Reviews and recommendations for programmatic changes, student reassignments, and building reuse or closings are all considered in the context of the Plan and have a significant financial impact as they relate to the District's education facilities and allocation of resources.

The Board of Education made a policy decision in the spring of 2010 to utilize interest rebates from the federal government from interest that the District would be paying on Qualified School Construction Bonds (QSCBs) and Build America Bonds (BABs) for receipt to the general fund, as allowable by current federal regulations, for four full calendar years (covering five fiscal years) in order to sustain the District's operations. This additional general fund operating revenue source ceased with the payment received in November, 2014, and then reverted to the bond retirement fund for future debt service payment purposes starting with the last BAB subsidy payment received in April 2015. With a current refunding of the BABs to tax-exempt bonds being effectuated in December of 2014, direct subsidies on those bonds will no longer be received, but direct subsidies on the QSCBs are still expected to be received as authorized by the federal government and are anticipated to be used exclusively for debt service purposes.

Effective January 1, 2014, the Board of Education made a policy decision to move ½-mill of inside property tax millage to the permanent improvement fund from the general fund. Permanent improvement fund expenditures are generally restricted to significant capital improvements and equipment purchases with an estimated useful life of five years or longer. This inside millage is expected to generate approximately \$385,000 annually based on the District's expected valuation for collection year 2016.

Long-Term Financial Planning

As part of the District's long-term planning, the Treasurer/CFO prepares a five-year financial forecast. This document provides a snapshot of historical and projected revenues and expense over the next five years and is accompanied by financial assumption notes. The Board of Education reviews this document on a semi-annual basis for changes that might impact their financial decisions. Further, the Treasurer/CFO meets at least semi-annually with a citizens finance committee comprised of residents that have a financial, business, legal and/or governmental background. This committee reviews the five-year forecast and other financial issues confronting the District and may offer suggestions and recommendations for the Treasurer/CFO to present to the Board of Education.

A formal policy was adopted by the Board of Education during fiscal year 2014 to reserve and restrict a minimum level of operating cash in order to mitigate the risk of a funding shortfall and to comply with best practices as established by the Government Finance Officers Association and other reputable sources as they related to sound fiscal management of an organization. The current intent is to reserve a minimum of \$175,000 per year until an amount equal to 2 mills of property valuation is reached (approximately \$1.56 million based on the expected property valuation for collection year 2016). Further, the Board policy requires a majority vote to release any reserved funds upon recommendation of the Superintendent. The Board and Administration will also look at opportunities to accelerate the funding of this reserve amount based on significant and unexpected one-time revenue sources or significant unanticipated savings from various budget areas, or by other means, as this acceleration is specifically called for as part of the realigned and updated strategic plan results mentioned previously.

Financial Information

Internal Accounting and Budgetary Control: In developing the District's accounting system, much consideration was given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing the financial statements and maintaining the accountability of assets. The concept of reasonable assurance is based on the assumption the cost of internal accounting controls should not exceed the benefits expected to be derived from their implementation.

The District utilizes a fully automated accounting system as well as an automated system of control for capital assets and payroll. Further, the District has been utilizing an automated vendor payment auditing system that reviews every vendor disbursement run through the system to verify compliance with laws and regulation and reviews for indications of fraudulent activity. This automated system was expanded recently to include payroll disbursements. These systems, coupled with the manual auditing of each voucher prior to payment, ensures financial information generated is both accurate and reliable. It should be noted that the District increased its capital asset capitalization threshold to \$2,000 from the previous amount of \$1,000 effective for the fiscal year ended June 30, 2014.

At the beginning of each fiscal year, the Board of Education adopts either a temporary appropriation measure or a permanent appropriation measure for the fiscal year. If a temporary appropriation is first adopted, the permanent appropriation measure must be adopted upon receipt from the County Fiscal Officer of an amended certificate of estimated resources based on final assessed values and tax rates, which is usually within three months of the fiscal year.

Annual appropriations may not exceed the County Budget Commission's official estimate of resources. The County Fiscal Officer must certify that the Board of Education's appropriation measures, including any supplements or amendments, do not exceed the amount set forth in the latest of those official estimates.

All disbursements and transfers of cash between funds require appropriation authority from the Board. Budgets are controlled at the fund level for all District funds. All non-site-based purchase order requests must be approved by the Executive Director of Human Resources and Support Services and certified by the Treasurer; necessary funds are then encumbered and purchase orders released to vendors. Those requests which exceed the available appropriation are rejected until additional appropriations are secured.

The accounting system used by the District provides interim financial reports which detail year-to-date expenditures and encumbrances versus the original appropriation plus any additional appropriations to date. In addition to interim financial statements, each administrator and school principal is furnished monthly reports showing the status of the budget accounts for which they are responsible. As an additional safeguard, all employees are covered by a blanket bond and certain individuals in policy making roles are covered by a separate, higher limit bond.

The basis of accounting and the various funds utilized by the District are fully described in Note 2 of the financial statements. Additional information on the District's budgetary accounting can also be found in Note 2.

Financial Reporting

The District's basic financial statements report on the District's financial activities as follows:

Government-wide financial statements: These statements are prepared on an accrual basis of accounting which is similar to the basis of accounting followed by many businesses. The government-wide statements distinguish between those activities of the District that are governmental and those that are considered business-type activities. The District has no business-type activities.

Fund financial statements: The focus of fund financial statements is on major funds rather than reporting funds by type. Non-major funds are presented in total in one column. Governmental funds use the modified accrual basis of accounting and include reconciliation to the governmental activities accrual information presented in the governmental-wide financial statements. Fiduciary funds use the accrual basis of accounting.

Statements of budgetary comparisons: These statements present comparisons of actual information to the legally adopted budget. The budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances.

As part of this reporting model, management is responsible for preparing a Management Discussion and Analysis (MD&A) of the District. This discussion is presented in the financial section of this report and provides an assessment of the District finances for fiscal year 2015. This transmittal letter is intended to be read in conjunction with the District's MD&A.

Independent Audit

State statutes require the District to be subjected to an annual examination by an independent auditor. An annual audit serves to maintain and strengthen the District's accounting and budgetary controls. The firm of James G. Zupka, CPA, Inc. was selected to render an opinion on the District's financial statements as of and for the year ended June 30, 2015. The opinion appears at the beginning of the financial section of this report.

Pursuant to statute, the State prescribes a uniform accounting system to standardize accounting classification and financial reporting for all school governments in Ohio. The District adopted and has been in conformance with that system beginning with its financial report for the year 1979.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded its Certificate of Achievement for Excellence in Financial Reporting to the Rocky River City School District for its comprehensive annual financial report (CAFR) for the year ended June 30, 2014.

This was the twenty-fourth year that the Rocky River City School District has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized CAFR, whose contents conform to program standards. Such a report must satisfy both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate. This Certificate is the highest form of recognition available for governmental accounting and financial

reporting. Attainment of this Certificate represents a substantial accomplishment for any governmental entity.

Acknowledgments

The publication of this report continues in the District's tradition of providing a high level of accountability of the District's finances to taxpayers, investors and other internal and external users of such information. This accomplishment would not have been possible without the support and efforts of the entire Treasurer's office staff of Janice Denham, Margaret Donnelly, Julie Allen, Karen Mickey as well as administrators and other employees of the District. Assistance of the County Fiscal Officer's office staff and other outside agencies made possible the fair presentation of statistical data provided in this report.

Special thanks are extended to the CPA firm of Julian & Grube, Inc. for their technical assistance in preparing this report as well as to Dr. Dianna Foley, the District's Executive Director of Communications and Organizational Development, for designing the covers and divider pages of this report.

The Board of Education's commitment to excellence to the District in general, and support for this project in particular, are sincerely appreciated.

INDEPENDENT AUDITOR'S REPORT

Board of Education
Rocky River City School District
Rocky River, Ohio

The Honorable Dave Yost
Auditor of State
State of Ohio

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Rocky River City School District, Cuyahoga County, Ohio (the District), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Rocky River City School District, Ohio, as of June 30, 2015, and the respective changes in financial position and the budgetary comparison for the General Fund thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As described in Note 3 to the financial statements, the District adopted GASB Statement No. 68, *Accounting and Financial Reporting for Pensions - an amendment of GASB No. 27*, and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date - an amendment of GASB No. 68*, and restated its July 1, 2014 net position. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Schedule of the School District's Proportionate Share of the Net Pension Liability, the Schedule of School District Contributions, and the Notes to the Required Supplementary Information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Rocky River City School District, Ohio's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 22, 2015, on our consideration of the Rocky River City School District, Ohio's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Rocky River City School District, Ohio's internal control over financial reporting and compliance.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015
(UNAUDITED)**

The discussion and analysis of Rocky River City School District's (the "District") financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2015. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the transmittal letter, notes to the basic financial statements and financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

Key financial highlights for 2015 are as follows:

In total, net position of the governmental activities increased \$2.2 million from a deficit balance of \$34.1 million at June 30, 2014 to a deficit of \$31.9 million at June 30, 2015 as restated in Note 3.

Total governmental activities revenues decreased \$1.2 million and total governmental activities expenses increased \$0.1 million for fiscal year 2015.

Program revenue, revenue from specific fees and grants, increased to 10.39 percent of all revenue from 9.88 percent in 2014. Almost ninety percent of governmental activities revenues come from general revenues, primarily property taxes.

Total capital assets, net decreased from \$58.7 million at June 30, 2014 to \$56.3 million at June 30, 2015. During fiscal 2014, the District completed the remaining buildings constructed or renovated under the District's \$42.9 million bond levy approved by the voters in May 2010.

The District's outstanding long-term obligations decreased to \$99.1 million at June 30, 2015 from \$108.5 million at June 30, 2014. The District restated long-term obligations as discussed in Note 3.

The District's major governmental funds are the general fund and bond retirement fund. The general fund had \$36.6 million in revenues and other financing sources and \$35.0 million in expenditures and other financing uses. During fiscal 2015, the general fund's fund balance increased \$1.6 million, from a balance of \$7.5 million to a balance of \$9.1 million.

The bond retirement fund had \$34.1 million in revenues and other financing sources and \$33.1 million expenditures and other financing uses. During fiscal 2015, the bond retirement fund's fund balance increased \$1.0 million from \$3.0 million to \$4.0 million.

Using this Comprehensive Annual Financial Report (CAFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *statement of net position* and *statement of activities* provide information about the activities of the whole District, presenting both an aggregate view of the District's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term and what remains for future spending. The fund financial statements also look at the District's most significant funds with all other non-major funds presented in total in one column. In the case of the District, the general fund and bond retirement fund are by far the most significant funds.

Reporting the District as a Whole

Statement of Net Position and the Statement of Activities

While this document contains the large number of funds used by the District to provide programs and activities, the view of the District as a whole looks at all financial transactions and asks the question, "How did we do financially during 2015?" The statement of net position and the statement of activities answer this question. These statements include *all assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues and expenses* using the *accrual basis of accounting* similar to the accounting used by most private-sector companies. This basis of accounting will take into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the District's *net position* and changes in that position. This change in net position is important because it tells the reader that, for the District as a whole, the *financial position* of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, current property tax laws in Ohio restricting revenue growth, facility conditions, required educational programs and other factors.

The statement of net position and the statement of activities include the District's programs and services, including instruction, support services (which includes the operation and maintenance of plant and pupil transportation), extracurricular activities and food service operations.

The District's statement of net position and statement of activities can be found on pages 41-42 of this report.

Reporting the District's Most Significant Funds

Fund Financial Statements

Fund financial statements provide detailed information about the District's major funds. The District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the District's most significant funds. The District's major governmental funds are the general fund and bond retirement debt service fund.

Governmental Funds

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end, available for spending in future periods. These funds are reported using an accounting method called *modified accrual* accounting, which measures cash and all other *financial assets* that can readily be converted to cash. The governmental fund statements provide a detailed *short-term view* of the District's general government operations and the services it provides.

Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental *activities* (reported in the statement of net position and the statement of activities) and governmental *funds* is reconciled in the financial statements. The basic governmental fund financial statements can be found on pages 43-47 of this report.

Reporting the District's Fiduciary Responsibilities

The District is a trustee, or fiduciary, for its scholarship programs. This activity is presented as a private-purpose trust fund. The District also acts in a trustee capacity as an agent for individuals or other entities. These activities are reported in agency funds. All of the District's fiduciary activities are reported in separate statements of fiduciary net position and changes in fiduciary net position on pages 48 and 49. These activities are excluded from the District's other financial statements because the assets cannot be utilized by the District to finance its operations.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. These notes to the basic financial statements can be found on pages 50-92 of this report.

The District as a Whole

The statement of net position provides the perspective of the District as a whole. Table 1 below provides a summary of the District's net position for 2015, 2014 and 2013. The net position at June 30, 2014 has been restated as described in Note 3.

During 2015, the District adopted GASB Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27," which significantly revises accounting for pension costs and liabilities. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the District's actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension.

FOR THE FISCAL YEAR ENDED JUNE 30, 2015
(UNAUDITED)**

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability*. GASB 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

Under the new standards required by GASB 68, the net pension liability equals the District's proportionate share of each plan's collective:

1. Present value of estimated future pension benefits attributable to active and inactive employees' past service
- 2 Minus plan assets available to pay these benefits

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the District is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system *as against the public employer*. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

In accordance with GASB 68, the District's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's *change* in net pension liability not accounted for as deferred inflows/outflows.

As a result of implementing GASB 68, the District is reporting a net pension liability and deferred inflows/outflows of resources related to pension on the accrual basis of accounting. This implementation also had the effect of restating net position at July 1, 2014, for governmental activities from \$16,528,865 to (\$34,061,756).

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015
(UNAUDITED)**

In conclusion, the implementation of GASB Statement No. 68 requires the reader to perform additional calculations to determine the District's total net position at June 30, 2015 without the implementation of GASB Statement No. 68. This is an important exercise, as the State Pension Systems (STRS & SERS) collect, hold and distributes pensions to our employees, not the Rocky River City School District. These calculations are as follows (amounts in millions):

Table 1: Total Net Position (with GASB 68)	\$	(31.9)
GASB 68 Calculations:		
Add Deferred Inflows related to Pension		8.1
Add Net Pension Liability		44.8
Less Deferred Outflows related to Pension		(3.3)
Total Net Position (without GASB 68)	<u>\$</u>	<u>17.7</u>
Net Position at June 30, 2014 (prior to GASB 68 restatement)	\$	16.5
Table 2: Add 2015 increase in Net Position		2.2
GASB 68 Calculations:		
Pension expense under GASB 68		1.9
2015 contractually required pension contributions		(2.9)
Total Net Position (without GASB 68)	<u>\$</u>	<u>17.7</u>

Total Assets decreased by \$1.7 million. Current assets increased \$.7 million primarily due to the completion of the construction project which increased cash and cash equivalents by \$.6 million. Capital assets decreased by \$2.4 million as depreciation expense exceeded capital additions. The District acquired \$.9 million in capital assets in fiscal 2015 but the related depreciation expenses related to the capital assets was \$3.3 million for fiscal 2015.

Total Liabilities and deferred inflows decreased by \$2.9 million. Long-term liabilities decreased \$9.4 million as the District paid bonds and other long-term obligations. Current liabilities decreased by \$.8 million due to a decrease in contracts payable due at June 30. Deferred inflows increased \$7.3 million due to an increase in the pension inflows as described above.

The restricted portion of net position of \$4.5 million at June 30, 2015 was an increase of \$1.3 million from June 30, 2014.

Governmental Activities

The information necessary to restate the 2014 beginning balances and the 2014 pension expense amounts for the effects of the initial implementation of GASB 68 is not available. Therefore, 2014 functional expenses still include pension expense of \$2,642,291 computed under GASB 27. GASB 27 required recognizing pension expense equal to the contractually required contributions to the plan. Under GASB 68, pension expense represents additional amounts earned, adjusted by deferred inflows/outflows. The contractually required contribution is no longer a component of pension expense. Under GASB 68, the 2015 statements report pension expense of \$1,891,315.

Consequently, in order to compare 2015 total program expenses to 2014, the following adjustments are needed (amounts in millions):

Total 2015 program expenses under GASB 68	\$	43.6
Pension expense under GASB 68		(1.9)
2015 contractually required pension contributions		<u>2.9</u>
Adjusted 2015 program expenses		44.6
 Total 2014 program expenses under GASB 27		 <u>43.5</u>
Increase in program		
expenses not related to pension	\$	<u><u>1.1</u></u>

During fiscal year 2015, change in net position increased \$2.2 million compared to a \$3.5 million increase in fiscal year 2014. Table 2 below shows the changes in governmental activities net position for fiscal year 2015, 2014 and 2013. The District restated net position for 2014 due to the implementation of GASB Statement No. 68

Total revenue for *governmental activities* decreased \$1.2 million primarily due to a decrease in tax revenue collections.

Total expenses for *governmental activities* increased \$.1 million.

Instruction expenses increased \$.4 million primarily due increased expenses related to the instruction of students with special needs. This area accounts for 52.32 percent of the District's governmental activities expenses for 2015.

Support services expenses decreased \$.6 million primarily due to a decrease in pupil transportation and operations and maintenance program expenses. The decrease is due to decreased costs related to the new facilities constructed by the District which were substantially completed in fiscal 2014. Support services account for 32.38 percent of District's governmental activities expenses for 2015.

Interest expenses decreased \$.2 million as the District paid off debt used for the construction project.

Program revenue support for governmental activities increased from 2014. The percent of program revenue support increased to 10.39 percent from 9.88 percent in 2014. Operating grants and contributions decreased primarily due to funding received from the federal government. The vast majority of revenue supporting governmental activities, almost 90 percent, continues to be general revenue. 74.31 percent of total revenue, \$34.0 million for 2015, was property taxes paid by the residents in the District. Only \$6.7 million (14.64 percent of total revenue) came from unrestricted state or federal sources (general revenue source).

	2015	2014	2013
Program Revenue	\$4.8	\$4.6	\$4.1
General Revenue	41.0	42.4	38.0

The District’s property taxes decreased \$1.2 million in 2015 due to fluctuations in taxes collected by the Cuyahoga County fiscal officer and available as advance at year-end. The amount available for advance can vary depending upon when tax bills are sent. The unique nature of property taxes in Ohio creates the need to routinely seek voter approval for operating funds. The overall revenue generated by a voted levy does not increase solely as a result of inflation. As an example, a homeowner with a home valued at \$100,000 and taxed at 1.0 mill would pay \$35.00 annually in taxes. If three years later the home were reappraised and increased to \$200,000 (and this inflationary increase in value is comparable to other property owners) the effective tax rate would become 0.5 mills and the owner would still pay \$35.00. Thus Districts dependent upon property taxes are hampered by a lack of revenue growth and must regularly return to the voters to maintain a constant level of service. Property taxes made up 74.31 percent of revenues for governmental activities for District in fiscal year 2015.

The statement of activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows, for governmental activities, the total cost of services and the net cost of services. That is, it identifies the cost of these services supported by tax revenue and unrestricted State entitlements.

Program revenue for governmental activities in 2014 was \$4.6 million, or 9.88 percent of all revenue. For 2015, program revenue was \$4.8 million, or 10.39 percent of all revenue. The largest expense area was instruction, comprising \$22.8 million, 52.25 percent of all governmental activity expenses.

The District's Governmental Funds

The District's major governmental funds are reported on pages 43 and 45. All governmental funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues and other financing sources of \$74.9 million and expenditures and other financing uses of \$72.6 million. The net change in fund balance for the year was most significant in the general fund. In addition, the general fund balance increased \$1.7 million as revenues continued to exceed expenditures despite revenues decreasing \$1.6 million from 2014. The only significant expenditure increase in the general fund was in the area of regular instruction which increased 4.43% due to increased costs associated to the education of students. The fund balance of the bond retirement fund increased \$1,034,309. Principal retirement in the bond retirement changed as the District refinanced a portion of the Series 2010 bonds in fiscal year 2015.

General Fund Budgeting Highlights

The District's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The most significant budgeted fund is the general fund.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015
(UNAUDITED)**

During the course of fiscal 2015, the District amended its general fund budget numerous times, none significant. The District uses site-based budgeting and the budgeting systems are designed to tightly control total site budgets but provide flexibility for site management.

For the general fund, actual budget basis revenue was \$.7 million higher than the original budget estimates of \$34.7 million. Final budgeted revenues were \$35.2 million which was lower than actual budget basis revenues of \$35.4 million.

Total expenditures on the budget basis (cash outlays plus encumbrances) were \$35.2 million. Actual expenditures were more than original budgeted expenditures of \$34.7 million and \$.1 million less than final budgeted expenditures of \$35.3 million. The actual expenditures were less than the final budgeted amounts primarily due to less than anticipated spending on support services.

The general fund budgetary statement can be found on page 47.

At the end of fiscal 2015, the District had \$56.3 million in total capital assets. This is the value of land, land improvements, building/improvements, furniture/equipment and vehicles after depreciation is taken off their value. The largest component of these capital assets is building/improvements.

Total capital assets decreased from \$58.7 million in 2014 to \$56.3 million for 2015. This decrease was the result of depreciation expense exceeding capital acquisitions. The District acquired \$.8 million in capital assets in fiscal 2015. For additional information on capital assets, see Note 10 to the basic financial statements.

The proceeds of the issue funded the construction of the new middle school and renovations of the other facilities in the District.

The School Building Improvement Bonds were issued following passage of the bond issue in May 2010. The bonds were issued in September 2010 in the amount of \$42.9 million. The proceeds of the issue is funding the construction project in the District. During 2015 the District refunded a portion of the Series 2010 bonds with the Series 2014 School Improvement bonds in the amount of \$28.3 million.

District Outlook

After several years of navigating financial challenges based on the current state of the economy and the continued erosion of state funding support, the Rocky River City School District is back on solid financial footing for the foreseeable future. As the preceding information shows, the District heavily depends on its property taxpayers. An operating levy of 5.9 mills was passed back in May of 2008 for a continuing period of time. That levy was planned to enable the District to continue its currently excellent education program level for a three-year levy cycle. However, with the continued emphasis on controlling costs and becoming more efficient with available resources, the District was able to stretch the planned three-year levy cycle to four years. This was in spite of a loss of over \$800,000 in State of Ohio funding (describe in more detail below) starting in July of 2012.

However, with the continued financial pressures of personnel needs to continue the level of services offered to our students, employee healthcare costs, facility needs, the continued erosion of the commercial tax base through state tax law changes detrimental to schools (e.g. the accelerated "phase out" of the personal property and public utility subsidy payments starting in fiscal year 2012) as well as commercial and residential reductions in property values leading to significant lost revenues and an increase in the amount of delinquent taxes due to the housing market and general economic downturn over the past year, this goal will be very challenging to meet. A once healthy General Fund cash balance was brought down to a dangerously low level at the end of fiscal year 2005 and did not significantly improve by the end of fiscal year 2009. The District continued to operate with a low General Fund cash balance in relation to total budget during fiscal year 2010 as well, although the District ended that year with a moderately larger unencumbered balance than it did at the end of fiscal year 2009. This trend continued to improve into fiscal year 2011 as the District ended the year slightly more than double the unencumbered balance from fiscal year 2010. As the District progressed through fiscal year 2012, it saw an additional increase in the ending unencumbered balance mainly due to an increase in delinquent tax collections during the first half of calendar year 2012.

Due to the need for additional operating funds for programming, the Board of Education placed a 5.9 mill operating levy on the March 2012 primary ballot. This levy was expected to produce an estimated \$4.2 million annually to fund the Districts educational programs and operations for the next 3 – 4 years; however, it was defeated by a very narrow margin. As a result of the levy failure, the District's Board and administrative team undertook a comprehensive re-evaluation of needs and created a plan that reduced costs and delayed some programming initiatives. As a result of this re-evaluation, the Board of Education then placed a reduced 4.9 mill operating levy on the ballot for November 2012 which ultimately passed by a wide margin. This new funding is expected to generate approximately \$3.5 million annually and is expected to carry the District through at least four additional fiscal years and possibly a fifth year based on current projections.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015
(UNAUDITED)**

The District continued some of the steps during fiscal year 2013 that were started back in fiscal year 2006 to stabilize the District's finances for the current fiscal year as well as for fiscal year 2014 and beyond in order to maintain and improve upon the District's educational and related programs. The Board of Education agreed to a one-year contract extension with both bargaining units in October of 2012 (effective 7/1/13) that again called for no base salary increases and an additional 1% in health insurance premium contributions from employees. These provisions have been applied to all non-bargaining employees as well. In March 2014, the District and both bargaining units agreed to a three-year contract for fiscal years 2015 through 2017 that included a base salary increase of 1.75% annually and retained step/experience increments. These agreements also called for significant, additional concessions in health care. As part of the bargaining unit contract extension agreed to on 10/4/12, all employees of the District will be required to pay 12% towards the funding premium cost of medical and prescription drug insurance effective 7/1/13.

As part of the bargaining unit agreements agreed to in March 2014, all employees of the District will be required to pay 13% of the monthly premium funding cost starting July 1, 2014, then increasing to 14% on July 1, 2015 and then 15% on July 1, 2016. These agreements also called for significant plan design changes that included an in-network deductible, co-payments for doctor office and emergency room visits, increased prescription drug co-payments and an increasing total out-of-pocket maximum amount for each year of the agreements. All of these provisions were extended to the District's non-bargaining employees as well. These changes piggyback the District's decision to join the Suburban Health Consortium as of July 1, 2010, which enabled the District to self-fund employee medical and prescription drug insurance plan with a group of 5,000+ lives. This arrangement has provided leverage in keeping annual increases to levels below general trending and even out increases when high claim years are experienced.

The District also reduced projected salary costs by hiring in certificated staff replacements at a lower placement on the teacher salary schedule wherever possible. This was significant going into fiscal year 2012 as the District had 23 employees (17 teachers, one administrator and five support staff) retire as of the end of fiscal year 2011, producing over \$700,000 in first-year savings for the District.

Some of the District's facilities were in need of significant repairs and remodeling/redesign in order to be brought up to acceptable standards. Since the District does not have a dedicated revenue stream or other resources to address these issues, the Board of Education placed a \$42.9 million bond levy before the voters in May of 2010 that passed by a significant margin. The bonds were subsequently issued in September of 2010 and included near zero-interest Qualified School Construction Bonds (QSCB's) and 35% rebateable Build America Bonds (BAB's) as authorized by the federal ARRA as well as traditional tax-exempt bonds. The BAB portion of the 2010 bond issue was refunded in December 2014, yielding a net present value savings to the District of just over \$1.1 million over the life of the bonds.

The plan for the use of these funds was a comprehensive one that covered the upgrade of virtually all buildings in the District (physical plant upgrades for the primary, intermediate and high schools and technology upgrades for the middle school) with the main emphasis being placed on the renovation and expansion of Rocky River High School to meet the needs of our students in order to provide them a 21st Century education. The construction phase for the renovated Board of Education administrative offices was substantially completed by July 15, 2011. The construction phases for Goldwood Primary School and Kensington Intermediate School were substantially completed by April, 2013 and December, 2012, respectively. The High School was substantially completed for the beginning of the 2013-14 school year in late August of 2013. The District continues to work on smaller scale capital projects and major equipment replacements that were not addressed with the aforementioned bond issue and plans to pay for these from available cash in the permanent improvement fund along with resources from the general fund as needed.

Educationally, the District continues to perform at the highest level as determined by the State of Ohio, which is measured by an objectively defined set of criteria. The District's Performance Index Score (a weighted average of State "report card" performance levels across subject areas and each tested grade) was 108.1 in 2009-10, 110.9 in 2010-11, 110.8 in 2011-12, 111.5 in 2012-13, 111.3 in 2013-14 and 106.5 in 2014-15 (preliminary data from the Ohio Department of Education). The four-year graduation rate for academic year 2014-15 was 99.5% projecting to a grade of A (preliminary data from the Ohio Department of Education).

In its assessments for academic year 2012-13, the State began implementing a number of changes in the way in which the performance of its school districts and their individual schools is to be measured and reported. The former designations, such as "Excellent" as described above, have been replaced with letter grades on performance indicators and several new measures. This new reporting is being phased in over several years. The four components initially included on the new report card are Achievement (measuring absolute academic achievement compared to national standards of success), Progress (measuring the average annual improvement for each student), Gap Closing (measuring how well a school district or school is doing in narrowing gaps in reading, math and graduation rate among students according to socioeconomic, racial, ethnic or disability status) and Graduation Rate (measuring the percentage of students who entered the 9th grade and graduated in four and five years). Two additional components, K-3 Literacy (measuring the improvement in reading for students in kindergarten through 3rd grade) and Prepared for Success (measuring whether students who graduate are prepared for college or a career), will be added in future years.

The District's final grades for other assessment areas were not yet available from the Ohio Department of Education for the 2014-15 academic year as of the date of this publication, but preliminary scores have been released and are included in the table below along with other measurements of academic performance.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015
(UNAUDITED)**

Additional measures will be graded over the next three academic years, with component and overall grades to be added in 2015-16.

The District also continued moving forward in fiscal 2015 with its strategic plan that was adopted in June of 2009. This has been the "roadmap" that the District has used to continue to move ahead in all areas of its operation. This plan was updated as part of a mid-term update in the spring of 2015 through the collaborative efforts of district board members, administration, parents and other interested community members and resulted in updated "action plan results" for the strategic areas of communications, curriculum & co-curriculum, facilities, finance, human resources and technology.

In June 2005, the State Legislature made landmark changes to the State's taxing structure with the passage of House Bill 66 that took effect July 1, 2005. Of the many changes to Ohio's taxing structure, one of the most significant changes was the phase-out of the tangible personal property (TPP) tax on most businesses inventory, manufacturing machinery and equipment, and furniture and fixtures over four years at about 25 percent annually beginning in tax year 2006. Most new manufacturing machinery and equipment that would have been first taxable in tax year 2006 and thereafter is no longer subjected to TPP tax. Ohio School Districts were to be fully "held harmless" for lost revenue through tax year 2010 by the State. HB 1 signed into law by the Governor as of July 1, 2010 included a provision to extend the full (100%) reimbursement of "base year" valuation losses through fiscal year 2013. Reimbursements were then to be phased out starting in fiscal year 2014 through fiscal year 2018. The District began receiving these "hold harmless" payments in May of 2006.

However, the revenue guarantee through fiscal 2013 was eliminated upon the adoption of Amended Substitute H.B. 153 that was signed into law on June 30, 2011. This house bill phases out the District's personal property tax reimbursement and the utility deregulation/SB3/KwH tax reimbursement revenue sources by fiscal year 2013. The impact on the District's revenues is a reduction of over \$821,748 for fiscal year 2012 and an *additional* \$445,684 in fiscal year 2013. The total reduction of revenue over four years of the District's forecast is \$3,491,956 over what was estimated based on previous law. This House Bill also removed all provisions of the "Evidenced Based Model" (EBM) that was in law previously.

On June 30, 2013, Governor Kasich signed H.B. 59 into law for the State's new biennium starting July 1, 2013. A significant piece of this legislation is the new funding model for public education. The most significant piece of the new funding model is the Core Opportunity Aid (formerly known as basic aid). Rather than using the old method of computing the state/local shares of the school funding formula (there is no longer a charge-off), the new funding system will calculate the first and main component using a per-pupil amount times the number of students (ADM) in the district. The per-pupil amounts are \$5,745 in fiscal year 2014 and \$5,800 in fiscal year 2015. This pot of money represents the district's Core Opportunity Aid (COA). The total COA is then multiplied by the new State Share Index to arrive at the state/local totals for this component of the formula.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015
(UNAUDITED)**

Amended House Bill 64, the State of Ohio's biennial budget bill, covering fiscal years' 2016 and 2017, was passed into law in June of 2015 to take effect on July 1, 2015. A key component of this bill for the Rocky River Schools was the minimum state funding component that would, over time, bring all districts in the state up to minimum funding equal to 20% of the state's per pupil Opportunity Grant, which would equal \$1,180 (\$5,900 x 20%) in FY 16 and \$1,200 (\$6,000 x 20%) in FY 17. This provision did pass in the Senate and was submitted to the Governor, but it was ultimately line-item vetoed by the Governor. However, the new formula is expected to add additional funding of approximately \$110K in FY 16 and \$203K in FY 17 (over FY 15 levels). We are hopeful that the minimum funding concept will be resurrected in the state legislature for future consideration.

This District has benefited modestly from the funding changes over the last few years and expects to do so through the end of the State's biennium at June 30, 2017, but it has still not recovered the lost funding mentioned prior.

These changes along with the increasingly difficult climate for school levy passage will be crucial issues to be dealt with by the District going forward, but the District's current position both programmatically and financially is very strong.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2015

Net change in fund balances - total governmental funds	\$	2,232,593
<i>Amounts reported for governmental activities in the statement of activities are different because:</i>		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets are allocated over their estimated useful lives as depreciation expense.		
Capital asset additions	\$ 850,762	
Current year depreciation	<u>(3,264,104)</u>	
Total		(2,413,342)
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, disposals, trade-ins, and donations) is to decrease net position.		
		(23,799)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		
Delinquent property tax revenues	(61,468)	
Earnings on investments	4,309	
Rental income	170,000	
Intergovernmental	<u>(2,802)</u>	
Total		110,039
Repayment of bond and lease-purchase obligation principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities on the statement of net position. Principal payments during the year were:		
Bonds	1,610,000	
Lease-purchase obligations	<u>337,298</u>	
Total		1,947,298
Issuance of refunding bonds are recorded as other financing source in the funds; however, in the statement of activities, they are not reported as revenues as they increase liabilities on the statement of net position.		
		(28,250,000)
Payment to refunded bond escrow agent for the retirement of bonds is an other financing use in the governmental funds but the payment reduces long-term liabilities on the statement of net position. Deferred charges related to bond refundings are amortized over the life of the issuance in the statement of activities. The following refunding transactions occurred during the year:		
Bonds refunded	28,500,000	
Deferred charges on debt refundings	<u>286,310</u>	
Total		28,786,310
Premiums on bonds issued are recorded as other financing source in the funds; however, in the statement of activities, they are not reported as revenues as they increase liabilities on the statement of net position.		
		(837,902)
In the statement of activities, interest is accrued on outstanding bonds, whereas in governmental funds, an interest expenditure is reported when due. The following items contributed to additional interest being reported in the statement of activities:		
(Increase) in accrued interest payable	60,692	
Accreted interest on capital appreciation bonds	(33,797)	
Amortization of bond premiums	48,581	
Amortization of deferred charges on debt refundings	<u>(4,785)</u>	
Total		70,691
Contractually required pension contributions are reported as expenditures in governmental funds; however, the statement of pension reports these amounts as deferred outflows.		
		2,841,828
Except for amounts reported as deferred inflows/outflows, changes in the net pension liability are reported as pension expense in the statement of activities.		
		(1,891,315)
Some expenses reported in the statement of activities, such as compensated absences, do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		
		<u>(425,927)</u>
Change in net position of governmental activities	\$	<u>2,146,474</u>

**ROCKY RIVER CITY SCHOOL DISTRICT
CUYAHOGA COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 1 - DESCRIPTION OF THE SCHOOL DISTRICT

The Rocky River City School District (the "District") is organized under Article VI, Sections 2 and 3 of the Constitution of the State of Ohio. The District operates under a locally-elected Board form of government consisting of five members elected at-large for staggered four year terms. The District provides educational services as authorized by State statute and federal guidelines.

The District is located in a suburban area west of Cleveland, Ohio. It is located in Cuyahoga County, and encompasses the entire City of Rocky River and a small portion of the City of Fairview Park. It is staffed by 206 certified, 150 non-certified and 19 administrative personnel who provide services from Pre-K through Grade 12 to 2,770 students and other community members. The District currently operates a primary school, an intermediate school, a middle school and a high school.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The most significant of the District's accounting policies are described below.

A. Reporting Entity

The reporting entity has been defined in accordance with GASB Statement No. 14, "The Financial Reporting Entity" as amended by GASB Statement No. 39, "Determining Whether Certain Organizations Are Component Units" and GASB Statement No. 61, "The Financial Reporting Entity: Omnibus an Amendment of GASB Statements No. 14 and No. 34". The reporting entity is composed of the primary government and component units. The primary government consists of all funds, departments, boards and agencies that are not legally separate from the District. For the District, this includes general operations, food service, and student related activities of the District.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's Governing Board and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; or (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations that are fiscally dependent on the District in that the District approves the budget, the issuance of debt or the levying of taxes. Certain organizations are also included as component units if the nature and significance of the relationship between the primary government and the organization is such that exclusion by the primary government would render the primary government's financial statements incomplete or misleading. Based upon the application of these criteria, the District has no component units. The basic financial statements of the reporting entity include only those of the District (the primary government).

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The following organization is described due to its relationship to the District:

RELATED ORGANIZATION

Rocky River Public Library

The Rocky River Public Library (the "Library") is a distinct political subdivision of the State of Ohio created under Chapter 3375 of the Ohio Revised Code. The Library is governed by a Board of Trustees appointed by the District's Board of Education. The Board of Trustees possesses its own contracting and budgeting authority, hires and fires personnel and does not depend on the District for operational subsidies. Although the District does serve as the taxing authority and may issue tax related debt on behalf of the Library, its role is limited to a ministerial function. The determination to request approval of a tax, the rate and the purpose are discretionary decisions made solely by the Board of Trustees. The Library did not receive any funding from the District during fiscal year 2015. Financial information can be obtained from the Clerk/Treasurer of the Rocky River Public Library at 1600 Hampton Rd., Rocky River, Ohio 44116.

JOINTLY GOVERNED ORGANIZATIONS

North Coast Council

The North Coast Council (NCC) is a jointly governed organization among thirty-two school districts, two educational service centers and the Rocky River City School District. NCC was organized for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among the member districts. Each of the governments of these schools supports the NCC based on a per pupil charge. The District contributed \$96,549 to NCC during fiscal year 2015. NCC is governed by a nine member Board of Directors consisting of superintendents from member school districts. Financial information can be obtained by contacting the Treasurer at the Cuyahoga County Educational Service Center, who serves as fiscal agent, at 5700 West Canal Road, Valley View, Ohio 44125.

Ohio Schools Council Association

The Ohio Schools Council Association (the "Council") is a jointly governed organization comprised of one hundred and ninety-nine school districts, joint vocational school districts, educational service centers and county boards of developmental disability. The mission of the Council is to identify, plan and provide services to member districts that can be more effectively achieved by cooperative endeavors of member districts than by an individual district operating on its own. Each district supports the Council by paying an annual participation fee. The Council's Board consists of nine superintendents of the participating districts whose term rotates every year. The degree of control exercised by any school district is limited to its representation on the Board. In fiscal year 2015, the District paid participation fees of \$1,743 to the Council. Financial information can be obtained by contacting the Executive Director of the Ohio Schools Council at 6133 Rockside Road, Suite 10, Independence, Ohio 44131.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The District participates in the Council's Power4Schools program. This program allows school districts to purchase electricity at reduced rates. Power4Schools has selected FirstEnergy Solutions as its exclusive provider for school districts in the Ohio Edison, The Illuminating Company, Toledo Edison, Duke Energy and AEP Ohio Power service areas. Eligible school districts in the Ohio Edison, The Illuminating Company and Toledo Edison service areas can obtain savings on electric generation and budget stability for a 8 1/2 year period and eligible school districts in the Duke Energy and AEP Ohio Power service areas can obtain savings on electric generation and budget stability for a two year period. Under the program, participating school districts will continue to receive their electricity from their local utility and their monthly bill will include an electric supply cost.

The District also participates in the Council's prepaid natural gas program which was implemented during fiscal year 2000. This program allows school districts to purchase natural gas at reduced rates, if the school districts will commit to participating in the program for a twelve year period. The participants make monthly payments based upon estimated usage. Annually, these estimated payments are compared to actual usage and any necessary adjustments are made.

The City of Hamilton, a municipal corporation and political subdivision duly organized and existing under the laws of the State of Ohio, issued \$89,450,000 in debt to purchase twelve years of natural gas from CMS Energy Corporation for the participants. The participating school districts are not obligated in any manner for this debt. If a participating school district terminates its agreement, the district is entitled to recover that amount, if any, of its contributions to the operating fund which are not encumbered for its share of program administrative costs.

INSURANCE PURCHASING POOL

Suburban Health Consortium

The Suburban Health Consortium (the "Consortium") is a shared health risk pool created on October 1, 2001, formed by the Boards of Education of several school districts in northeast Ohio, for the purposes of maximizing benefits and/or reducing costs of group health, life, dental and/or other insurance coverage's for their employees and the eligible dependents and designated beneficiaries of such employees. The Consortium was formed and operates as a legally separate entity under Ohio Revised Code Section 9.833. The Board of Directors shall be the governing body of the Consortium. The Board of Education of each Consortium Member shall appoint its Superintendent or such Superintendent's designee to be its representative of the Board of Directors. The officers of the Board of Directors shall consist of a Chairman, Vice-Chairman and Recording Secretary, who shall be elected at the annual meeting of Board of Directors and serve until the next annual meeting. All of the authority of the Consortium shall be exercised by or under the direction of the Board of Directors. The Board of Directors shall also set all premiums and other amounts to be paid by the Consortium Members, and the Board of Directors shall also have the authority to waive premiums and other payments. All members of the Board of Directors shall serve without compensation.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The Fiscal Agent shall be the Board of Education responsible for administering the financial transactions of the Consortium (Orange City School District). The Fiscal Agent shall carry out the responsibilities of the Consortium Fund, enter into contracts on behalf of the Consortium as authorized by the Directors and carry out such other responsibilities as approved by the Directors and agreed to by the Fiscal Agent. Each District Member enrolled in a benefit program may require contributions from its employees toward the cost of any benefit program being offered by such District Member, and such contributions shall be included in the payments from such District Member to the Fiscal Agent for such benefit program. Contributions are to be submitted by each District Member, to the Fiscal Agent, required under the terms of the Consortium Agreement and any benefit program in which such District Member is enrolled to the Fiscal Agent on a monthly basis, or as otherwise required in accordance with any benefit program in which such District Member is enrolled. All general administrative costs incurred by the Consortium that are not covered by the premium payments shall be shared equally by the Consortium Members as approved by the Directors, and shall be paid by each Consortium Member upon receipt of notice from the Fiscal Agent that such payment is due. It is the express intention of the Consortium Members that the Consortium Agreement and the Consortium shall continue for an indefinite term, but may be terminated as provided in the Consortium Agreement. Any Consortium Member wishing to withdraw from participation in the Consortium or any benefit program shall notify the Fiscal Agent at least one hundred eighty (180) days prior to the effective date of withdrawal.

Upon withdrawal of a Consortium Member, the Consortium shall pay the run out of all claims for such Consortium Member provided such Consortium Member has paid to the Consortium, prior to the effective date of withdrawal, a withdrawal fee in the amount equal to two months' premiums at the Consortium Member's current rate. Payment of the withdrawal fee does not extend insurance coverage for two months. Upon automatic withdrawal, for non-payment of premiums required by the Consortium Agreement, the Consortium shall pay the run out of all claims for such Consortium Member provided that the Consortium has received from such Consortium Member all outstanding and unpaid premiums and other amounts and the withdrawal fee equal to two months' premiums at the Consortium Member's current rates. Any Consortium Member which withdraws from the Consortium pursuant to the Consortium Agreement shall have no claim to the Consortium's assets. Financial information for the Consortium can be obtained from Greg Slemons, Treasurer of the Orange City School District (the "Fiscal Agent") at 32000 Chagrin Blvd, Cleveland, Ohio 44124-5922.

Ohio Schools' Council Workers' Compensation Group Rating Program

The Ohio Schools' Council Workers' Compensation Group Rating Program (the "Plan") is an insurance purchasing pool (See Note 14.C.). The plan is intended to reduce premiums for the participants. The Worker's Compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the Plan.

B. Fund Accounting

The District uses funds to report its financial position and the results of its operations. A fund is a separate accounting entity with a self-balancing set of accounts. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain school district activities or functions. Funds are classified into three categories: governmental, proprietary and fiduciary. Each category is divided into separate fund types.

**ROCKY RIVER CITY SCHOOL DISTRICT
CUYAHOGA COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

GOVERNMENTAL FUNDS

Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and deferred outflows of resources and liabilities and deferred inflows of resources is reported as fund balance.

The following are the District's major governmental funds:

General fund - The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

Bond retirement fund - The bond retirement fund is used to account for and report financial resources that are restricted to expenditure for principal and interest.

Other governmental funds of the District are used to account for (a) financial resources that are restricted, committed, or assigned to expenditures for capital outlays including the acquisition or construction of capital facilities and other capital assets, and b) specific revenue sources that are restricted or committed to an expenditure for specified purposes other than debt service or capital projects.

PROPRIETARY FUNDS

Proprietary funds are used to account for the District's ongoing activities which are similar to those often found in the private sector. The District has no proprietary funds.

FIDUCIARY FUNDS

Fiduciary fund reporting focuses on net position and changes in net position. For the District, the fiduciary fund category is split into four classifications: investment trust funds, pension trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. The District's only trust fund is a private-purpose trust which accounts for scholarship programs for students. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The District's agency funds accounts for student managed activities and collections made on behalf of and for distribution to the Ohio High School Athletic Association.

C. Basis of Presentation and Measurement Focus

Government-wide Financial Statements - The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. These statements distinguish between those activities that are governmental and those that are considered business-type activities. The District has no business-type activities.

**ROCKY RIVER CITY SCHOOL DISTRICT
CUYAHOGA COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the governmental activities of the District. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include amounts paid by the recipient of goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues not classified as program revenues are presented as general revenues of the District.

The government-wide financial statements are prepared using the economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the District are included on the statement of net position.

Fund Financial Statements - Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column, and all nonmajor funds are aggregated into one column. Fiduciary funds are reported by fund type.

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities and deferred inflows of resources generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, the private-purpose trust fund is accounted for on a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of this fund are included on the statement of fiduciary net position. The statement of changes in fiduciary net position presents increases (i.e., revenues) and decreases (i.e., expenses) in total net position.

Agency funds do not report a measurement focus as they do not report operations.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Fiduciary funds also use the accrual basis of accounting.

Revenues - Exchange and Non-exchange Transactions - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year end.

**ROCKY RIVER CITY SCHOOL DISTRICT
CUYAHOGA COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Nonexchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 7).

Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, tuition, grants, and student fees.

Deferred Outflows of Resources and Deferred Inflows of Resources - In addition to assets, the government-wide statement of net position will report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the District, deferred outflows of resources have been reported for the following two items related the District's net pension liability: (1) the difference between expected and actual experience of the pension systems, and (2) the District's contributions to the pension systems subsequent to the measurement date. In addition, deferred outflows of resources include a deferred charge on debt refunding. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, both the government-wide statement of net position and the governmental fund financial statements report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes, payments in lieu of taxes and unavailable revenue. Property taxes and payments in lieu of taxes represent amounts for which there is an enforceable legal claim as of June 30, 2015, but which were levied to finance fiscal year 2016 operations. These amounts have been recorded as a deferred inflow of resources on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the District unavailable revenue includes, but is not limited to, delinquent property taxes and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available.

The District also reports a deferred inflow of resources for the net difference between projected and actual earnings on pension plan investments related to the District's net pension liability. This deferred inflow of resources is only reported on the government-wide statement of net position.

CUYAHOGA COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Expenses/Expenditures - On the accrual basis of accounting, expenses are recognized at the time they are incurred. The entitlement value of donated commodities received during the year is reported in the statement of revenues, expenditures and changes in fund balances as an expenditure with a like amount reported as intergovernmental revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocation of cost, such as depreciation and amortization, are not recognized in governmental funds.

E. Budgetary Process

All funds, other than agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the appropriation resolution and the certificate of estimated resources, which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amounts that the Board of Education may appropriate. The appropriation resolution is the Board's authorization to spend resources and sets annual limits on expenditures plus encumbrances at a level of control selected by the Board. The legal level of control has been established by the Board of Education at the fund level for all funds. Any budgetary modifications at this level may only be made by resolution of the Board of Education. The Treasurer has been given the authority to allocate Board appropriations to the function and object levels within each fund.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the School District Treasurer. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the certificate when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the final amended certificate in effect when the final appropriations were passed prior to fiscal year-end.

The appropriation resolution is subject to amendment by the Board throughout the year with the restriction that appropriations may not exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriation for that fund that covered the entire fiscal year, including amounts automatically carried over from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by the Board during the year.

F. Cash and Investments

To improve cash management, cash received by the District is pooled. Monies for all funds are maintained in this pool. Individual fund integrity is maintained through the District's records. Each fund's interest in the pool is presented as "equity in pooled cash and investments" on the financial statements.

**ROCKY RIVER CITY SCHOOL DISTRICT
CUYAHOGA COUNTY, OHIO**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015**

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

During fiscal year 2015, investments were limited to Federal Home Loan Bank (FHLB) securities, Federal Farm Credit Bank (FFCB) securities, Federal Home Loan Mortgage Corporation (FHLMC) securities, negotiable certificates of deposit (negotiable CD's), and investments in the State Treasury Asset Reserve of Ohio (STAR Ohio). Except for nonparticipating investment contracts, investments are reported at fair value which is based on quoted market prices. Nonparticipating investment contracts, such as non-negotiable certificates of deposit, are reported at cost.

The District has invested funds in STAR Ohio during fiscal year 2015. STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the state to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's shares price which is the price the investment could be sold for on June 30, 2015.

Under existing Ohio statute, interest earnings are allotted to the general fund unless the Board of Education has, by resolution, specified funds to receive an allocation of interest earnings. Interest revenue credited to the general fund during fiscal year 2015 amounted to \$67,050 which includes \$24,529 assigned from other District funds.

For presentation on the basic financial statements, investments purchased by the cash management pool and investments with original maturities of three months or less at the time they are purchased by the District are considered to be cash equivalents. Investments with an initial maturity of more than three months are reported as investments.

An analysis of the District's investment account at fiscal year-end is provided in Note 5.

G. Inventory

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis and are expensed when used.

On fund financial statements, inventories of governmental funds are stated at cost. Donated commodities are reported at their entitlement value. For all funds, cost is determined on a first-in, first-out basis. Inventory in governmental funds consists of expendable supplies held for consumption and donated food, purchased food, and school supplies held for resale. The costs of inventory items are recorded as expenditures in the governmental funds when purchased. Inventories for governmental funds are accounted for using the consumption method.

On the fund financial statements, reported material and supplies inventory is equally offset by nonspendable fund balance in the governmental funds which indicates that it does not constitute available spendable resources even though it is a component of net current assets. Inventory held for resale is not offset by nonspendable fund balance as the proceeds from the eventual sale of the inventory is either restricted, committed or assigned.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

H. Capital Assets

General capital assets are those assets specifically related to governmental activities. These assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of \$2,000. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

All reported capital assets except land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Governmental Activities Estimated Lives</u>
Land improvements	10-30 years
Building/ improvements	10-40 years
Furniture/equipment	5-20 years
Vehicles	8 years

I. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund loans receivable" and "interfund loans payable." These amounts are eliminated in the governmental column of the statement of net position. At fiscal year end, the District had \$70,000 in interfund loans receivable/payable related to short-term loans between fund, \$616,071 in interfund loans receivable/payable related to internal borrowings (manuscript bonds) between governmental funds and \$18,374 in interfund loans receivable/payable related to negative cash balance in a certain nonmajor governmental fund (See Note 6).

J. Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements. Transfers between governmental funds are eliminated for reporting on the government-wide statement of activities. Interfund services provided and used are not eliminated for reporting on the government-wide statement of activities.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

K. Compensated Absences

Compensated absences of the District consist of vacation leave and severance liability to the extent that payments to the employee for these absences are attributable to services already rendered and are not contingent on a specific event that is outside the control of the District and the employee.

In accordance with the provisions of GASB Statement No. 16, "Accounting for Compensated Absences", a liability for vacation leave is accrued if a) the employees' rights to payment are attributable to services already rendered; and b) it is probable that the employer will compensate the employees for the benefits through paid time off or other means, such as cash payment at termination or retirement. A liability for severance is accrued using the termination method; i.e., a liability is accrued for earned sick leave to the extent that it is probable that benefits will result in termination payments. The liability is an estimate based on the District's past experience of making termination payments.

The total liability for vacation and severance payments has been calculated using pay rates in effect at June 30, 2015, and reduced to the maximum payment allowed by labor contract and/or statute, plus any additional salary related payments.

The entire compensated absence liability is reported on the government-wide financial statements. For governmental fund financial statements, compensated absences are recognized as liabilities and expenditures as payments come due each period upon the occurrence of employee resignations and retirements.

L. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds and notes are recognized as a liability in the fund financial statements when due.

M. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

Nonspendable - The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form or legally required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of loans receivable.

**ROCKY RIVER CITY SCHOOL DISTRICT
CUYAHOGA COUNTY, OHIO**

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

Restricted - Fund balance is reported as restricted when constraints are placed on the use of resources that are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Committed - The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by a formal action (resolution) of the District Board of Education (the highest level of decision making authority). Those committed amounts cannot be used for any other purpose unless the District Board of Education removes or changes the specified use by taking the same type of action (resolution) it employed to previously commit those amounts. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned - Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted nor committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the general fund, assigned amounts represent intended uses established by policies of the District Board of Education, which includes giving the Treasurer the authority to constrain monies for intended purposes. The Board's has, by resolution, authorized the Treasurer to assign fund balances for encumbrances outstanding at year-end.

Unassigned - Unassigned fund balance is the residual classification for the general fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is only used to report a deficit fund balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when expenditures are incurred for purposes for which restricted and unrestricted (committed, assigned, and unassigned) fund balance is available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

N. Non-public Schools

Within the School District boundaries, St. Christopher, St. Thomas, and Ruffing Montessori Elementary Schools, and Lutheran West and Magnificat High Schools are operated as non-public schools. Current State legislation provides funding to these schools. These monies are received and disbursed on behalf of the schools by the Treasurer of the District, as directed by the schools. This activity is reflected as a governmental activity for financial reporting purposes.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

O. Net Position

Net position represents the difference between assets and deferred outflows and liabilities and deferred inflows. The net position component "net investment in capital assets," consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction or improvement of those assets or related debt also should be included in this component of net position. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

P. Contributions of Capital

Contributions of capital in the government-wide financial statements arise from outside contributions of capital assets, or from grants or outside contributions of resources restricted to capital acquisition and construction. The District received \$23,175 in contributed equipment during fiscal year 2015.

Q. Estimates

The preparation of the basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

R. Issuance Costs/Bond Premiums and Discounts and Accounting Gain or Loss on Debt Refunding

On the governmental fund financial statements, issuance costs, bond premiums, bond discounts, and deferred charges from debt refunding are recognized in the current period.

On the government-wide financial statements, issuance costs are recognized in the current period and are not amortized. Bond premiums and discounts are amortized over the term of the bonds using the straight-line method. Unamortized bond premiums are presented as an addition to the face amount of the bonds reported on the statement of net position. Unamortized bond discounts are presented as a reduction to the face amount of the bonds reported on the statement of net position. The reconciliation between the bonds face value and the amount reported on the statement of net position is presented in Note 12.

For advance refunding resulting in the defeasance of debt, the difference between the reacquisition price and the net carrying amount of the old debt is deferred and amortized as a component of interest expense. This accounting gain or loss is amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter, and is presented as a deferred outflow of resources.

S. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

T. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during fiscal year 2015.

NOTE 3 - CHANGE IN ACCOUNTING PRINCIPLES/RESTATEMENT OF NET POSITION

For fiscal year 2015, the District has implemented GASB Statement No. 68, "Accounting and Financial Reporting for Pensions - an Amendment of GASB Statement No. 27", GASB Statement No. 69 "Government Combinations and Disposals of Government Operations", and GASB Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date - an Amendment of GASB Statement No. 68".

GASB Statement No. 69 establishes accounting and financial reporting standards related to government combinations and disposals of government operations. The Statement improves the decision usefulness of financial reporting by requiring that disclosures be made by governments about combination arrangements in which they engage and for disposals of government operations. The implementation of GASB Statement No. 69 did not have an effect on the financial statements of the District.

GASB Statement No. 68 improves the accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. The implementation of GASB Statement No. 68 affected the District's pension plan disclosures, as presented in Note 14 to the financial statements, and added required supplementary information which is presented after the notes to the basic financial statements.

GASB Statement No. 71 improves the accounting and financial reporting by addressing an issue in GASB Statement No. 68, concerning transition provisions related to certain pension contributions made to defined benefit pension plans prior to implementation of that Statement by employers and nonemployer contributing entities.

NOTE 3 - CHANGE IN ACCOUNTING PRINCIPLES/RESTATEMENT OF NET POSITION - (Continued)

A net position restatement is required in order to implement GASB Statement No 68 and 71. The governmental activities at July 1, 2014 have been restated as follows:

	Governmental Activities
Net position as previously reported	\$ 16,528,865
Deferred outflows - payments subsequent to measurement date	2,642,291
Net pension liability	(53,232,912)
Restated net position at July 1, 2014	\$ (34,061,756)

NOTE 4 - ACCOUNTABILITY AND COMPLIANCE

Other than employer contributions subsequent to the measurement date, the District made no restatement for deferred inflows/outflows of resources as the information needed to generate these restatements was not available. The restatement had no effect on fund balances.

A. Deficit Fund Balances

Fund balances at June 30, 2015 included the following individual fund deficits:

<u>Nonmajor funds</u>	<u>Deficit</u>
Title VI-B	\$ 4,774
Title I	2,002

The general fund is liable for any deficit in this fund and provides transfers when cash is required, not when accruals occur. The deficit fund balance resulted from adjustments for accrued liabilities.

B. Fund Reclassification

For reporting at June 30, 2015, the building fund is no longer considered a major governmental fund. As such, the fund will be reclassified from a major governmental fund to a nonmajor governmental fund. The fund reclassification had the following effect on fund balances as previously reported.

	Building	Nonmajor Governmental Funds
Fund balance as previously reported	\$ 416,019	\$ 756,794
Fund reclassification due to major fund reporting	(416,019)	416,019

NOTE 5 - DEPOSITS AND INVESTMENTS

State statutes classify monies held by the District into three categories.

Active deposits are public deposits necessary to meet current demands on the treasury. Such monies must be maintained either as cash in the District treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that the Board of Education has identified as not required for use within the current five year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories.

Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Interim monies may be deposited or invested in the following securities:

1. United States Treasury Notes, Bills, Bonds, or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and that the term of the agreement must not exceed thirty days;
4. Bonds and other obligations of the State of Ohio;
5. No-load money market mutual funds consisting exclusively of obligations described in items (1) and (2) above and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
6. The State Treasurer's investment pool (STAR Ohio);
7. Certain banker's acceptance and commercial paper notes for a period not to exceed one hundred eighty days from the purchase date in an amount not to exceed twenty-five percent of the interim monies available for investment at any one time: and,
8. Under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

**ROCKY RIVER CITY SCHOOL DISTRICT

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 5 - DEPOSITS AND INVESTMENTS - (Continued)

Protection of District's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution or by a single collateral pool established by the financial institution to secure the repayment of all public monies deposited with the institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

A. Deposits with Financial Institutions

At June 30, 2015, the carrying amount of all District deposits was \$5,797,661. Based on the criteria described in GASB Statement No. 40, "Deposits and Investment Risk Disclosures", as of June 30, 2015, \$5,543,589 of the District's bank balance of \$6,374,365 was exposed to custodial risk as discussed below, while \$830,776 was covered by the FDIC.

Custodial credit risk is the risk that, in the event of bank failure, the District's deposits may not be returned. It is the District's policy that all deposits be collateralized with eligible securities in amounts equal to at least 105 percent of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the District. The District has no deposit policy for custodial credit risk beyond the requirements of State statute. Although the securities were held by the pledging institutions' trust department and all statutory requirements for the deposit of money had been followed, noncompliance with federal requirements could potentially subject the District to a successful claim by the FDIC.

B. Investments

As of June 30, 2015, the District had the following investments and maturities:

Investment type	Fair Value	Investment Maturities				
		6 months or less	7 to 12 months	13 to 18 months	19 to 24 months	Greater than 24 months
Negotiable CD's	\$ 3,484,899	\$ 1,494,434	\$ -	\$ 497,630	\$ 1,492,835	\$ -

FHLMC	496,790	-	-	-	-	496,790
STAR Ohio	386	386	-	-	-	-
Total	\$ 4,982,915	\$ 1,995,035	\$ -	\$ 497,630	\$ 1,492,835	\$ 997,415

The weighted average maturity of investments is 1.52 years.

Interest Rate Risk: As a means of limiting its exposure to fair value losses arising from rising interest rates and according to State law, the District's investment policy limits investment portfolio maturities to five years or less.

Credit Risk: The District's investments in federal agency securities were rated AA+ and Aaa by Standard & Poor's and Moody's Investor Services, respectively. STAR Ohio was rated AAAM by Standard & Poor's. The negotiable CD's were fully covered by the FDIC. The District has no investment policy that would further limit its investment choices.

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The federal agency securities are exposed to custodial credit risk in that they are uninsured, unregistered and held by the counterparty's trust department or agent, but not in the District's name. The District has no investment policy dealing with investment custodial risk beyond the requirement in State statute that prohibits payment for investments prior to the delivery of the securities representing such investments to the treasurer or qualified trustee.

Concentration of Credit Risk: The District places no limit on the amount that may be invested in any one issuer. The following table includes the percentage of each investment type at June 30, 2015:

Investment type	Fair Value	% of Total
Negotiable CDs	\$ 3,484,899	69.93
FHLB	500,215	10.04

C. Reconciliation of Cash and Investments to the Statement of Net Position

The following is a reconciliation of cash and investments as reported in the note above to cash and investments as reported on the statement of net position as of June 30, 2015:

<u>Cash and investments per note</u>	
Carrying amount of deposits	\$ 5,797,661
Investments	<u>4,982,915</u>
Total	<u>\$ 10,780,576</u>
 <u>Cash and investments per statement of net position</u>	
Governmental activities	\$ 10,543,320
Private-purpose trust fund	14,256
Agency fund	<u>223,000</u>
Total	<u>\$ 10,780,576</u>

NOTE 6 - INTERFUND TRANSACTIONS

A. Interfund loans receivable/payable consisted of the following at June 30, 2015, as reported on the fund statements:

<u>Receivable fund</u>	<u>Payable fund</u>	<u>Amount</u>
General	Nonmajor governmental	\$ 88,374
Bond retirement	Nonmajor governmental	<u>616,071</u>
Total		<u>\$ 704,445</u>

The primary purpose of the interfund balances is to cover costs in specific funds where revenues were not received by June 30. These interfund balances will be repaid once the anticipated revenues are received. The interfund receivable in the general fund represents (1) \$18,374 loaned from the general fund to nonmajor governmental funds to cover cash overdrafts in nonmajor governmental funds, and (2) \$70,000 in interfund loans made from the general fund to the permanent improvement fund (a nonmajor governmental fund). In addition, the District issued \$616,071 in manuscript debt from the bond retirement fund to the building fund (a nonmajor governmental fund). The debt provided temporary funding for buses until funds are received. \$327,686 will be repaid on August 13, 2015; and the remaining \$177,014 will be paid on June 17, 2016. The manuscript debt was issued with an annual interest rate of 1 percent.

Interfund loans between governmental funds are eliminated on the government-wide financial statements.

NOTE 6 - INTERFUND TRANSACTIONS - (Continued)

- B.** Interfund transfers for the year ended June 30, 2015, consisted of the following, as reported on the fund statements:

	<u>Amount</u>
<u>Transfers from general fund to:</u>	
Nonmajor governmental funds	<u>\$124,000</u>

Transfers are used to move revenues from the fund that statute or budget required to collect them to the fund that statute or budget requires to expend them and to use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. Interfund transfers between governmental funds are eliminated on the government-wide financial statements; therefore, no transfers are reported on the statement of activities.

NOTE 7 - PROPERTY TAXES

Property taxes are levied and assessed on a calendar year basis while the District fiscal year runs from July through June. First half tax collections are received by the District in the second half of the fiscal year. Second half tax distributions occur in the first half of the following fiscal year.

Property taxes include amounts levied against all real property and public utility property. Real property tax revenues received in calendar year 2015 represent the collection of calendar year 2014 taxes. Real property taxes received in calendar year 2015 were levied after April 1, 2014, on the assessed values as of January 1, 2014, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established. Public utility property tax revenues received in calendar year 2015 represent the collection of calendar year 2014 taxes. Public utility real and personal property taxes received in calendar year 2015 became a lien on December 31, 2013, were levied after April 1, 2014, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value.

The District receives property taxes from Cuyahoga County. The County Fiscal Officer periodically advances to the District its portion of the taxes collected. Second-half real property tax payments collected by the County by June 30, 2015, are available to finance fiscal year 2015 operations. The amount available as an advance at June 30, 2015 was \$6,807,622 in the general fund, \$1,037,309 in the bond retirement fund and \$80,039 in the permanent improvement fund (a nonmajor governmental fund). This amount is recorded as revenue. The amount available for advance at June 30, 2014 was \$5,537,512 in the general fund, \$843,777 in the bond retirement fund and \$65,107 in the permanent improvement fund (a nonmajor governmental fund). The amount of second-half real property taxes available for advance at fiscal year-end can vary based on the date the tax bills are sent.

Accrued property taxes receivable includes real property, public utility property and delinquent tangible personal property taxes which are measurable as of June 30, 2015 and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount of real property taxes available as an advance at June 30 was levied to finance current fiscal year operations and is reported as revenue at fiscal year-end. The portion of the receivable not levied to finance current fiscal year operations is offset by a credit to deferred inflows.

NOTE 8 - RECEIVABLES

Receivables at June 30, 2015 consisted of taxes, accounts (billings for user charged services and student fees), accrued interest, and intergovernmental grants and entitlements. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs and the current year guarantee of federal funds.

A summary of the principal items of receivables reported on the statement of net position follows:

Governmental activities:	
Property taxes	\$ 33,541,967
Accounts	38,878
Intergovernmental	311,516
Accrued interest	<u>10,403</u>
Total governmental activities	<u>\$ 33,902,764</u>

Receivables have been disaggregated on the face of the basic financial statements. All receivables are expected to be collected within the subsequent year.

NOTE 9 - LEASE-PURCHASE OBLIGATIONS

During fiscal year 2014, the District entered into lease-purchase agreements with PNC Equipment Finance, LLC to finance the acquisition of artificial turf at the high school. Lease payments made under the lease-purchase agreement have been reclassified and are reflected as debt service expenditures in the financial statements for the governmental funds. These expenditures are reported as function expenditures on the budgetary statements. The total amount of the lease-purchase is \$470,275. The lease-purchase agreement bears an interest rate of 2.87%.

During fiscal year 2014, the District entered into lease-purchase agreements with FirstMerit Bank, N.A. to finance the acquisition of computer and technology equipment. Lease payments made under the lease-purchase agreement have been reclassified and are reflected as debt service expenditures in the financial statements for the governmental funds. These expenditures are reported as function expenditures on the budgetary statements. The total amount of the lease-purchase is \$99,212. The lease-purchase agreement bears an interest rate of 2.97%.

During fiscal year 2013, the District entered into lease-purchase agreements with Huntington Public Capital Corporation to finance the acquisition of computers. Lease payments made under the lease-purchase agreement have been reclassified and are reflected as debt service expenditures in the financial statements for the governmental funds. These expenditures are reported as function expenditures on the budgetary statements. The lease-purchase agreement bears an interest rate of 1.20%. The final lease payment on this lease-purchase agreement were made in fiscal year 2015.

Capital assets consisting of computers and land improvements (field turf project) have been capitalized in the amount of \$1,294,487. This amount represents the present value of the minimum lease payments at the time of acquisition. A corresponding liability is recorded in the government-wide financial statements. Principal and interest payments in fiscal year 2015 of \$337,298 and \$15,834, respectively, were paid by the general fund.

The following is a schedule of the future long-term minimum lease payments required under the lease-purchase agreements based upon total allowable borrowings and the present value of the future minimum lease payments as of June 30, 2015 based upon amounts actually drawn:

School Improvement Refunding Bonds - Series 2014

On December 30, 2014, the District issued \$28,250,000, in general obligation refunding bonds, which included \$11,040,000 in serial bonds and \$17,210,000 in term bonds with interest rates varying from 3.25 percent to 4.0 percent. The final stated maturity on the issue is December 1, 2044. Proceeds were used to advance refund \$28,500,000 of the outstanding Series 2010 school improvement Build America Bonds (BABs).

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015**

NOTE 12 - LONG-TERM OBLIGATIONS - (Continued)

The bonds were sold at a premium of \$837,902. Proceeds of \$28,786,310 (after the underwriting fees and other issuance costs) were deposited in an irrevocable trust with an escrow agent to provide for all future debt payments on the refunded Series 2010 school improvement BABs. As a result, \$28,500,000 of these bonds were considered defeased and the liability for the refunding portion of these bonds has been removed from the basic financial statements. As of June 30, 2015, the outstanding amount of the refunded bonds is \$28,500,000.

The reacquisition price exceeded the net carrying amount of the old debt by \$286,310. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is equal to the life of the new debt issued. This advance refunding was undertaken to reduce the combined total debt service payments by \$1,683,536 and resulted in an economic gain of \$1,115,501.

School Improvement Bonds - Series 2010

On September 28, 2010, the District issued \$42,900,000, in general obligation school improvement bonds, including \$3,140,000 in serial bonds, \$28,500,000 in term Build America Bonds (BABs) and \$11,260,000 in sinking fund Qualified School Construction Bonds (QSCBs). Proceeds from the bond issue are being used to construct, renovate, remodel, add to, furnish, equip or otherwise improve school district buildings and facilities. The bonds were sold at a premium of \$443,449. Principal payments on the bonds are due December 1 or each year while interest payments are due on June 1 and December 1 of each year. Principal and interest payments are made from the bond retirement fund. During 2015, The District advance refunded the entire balance of the BABs, in the amount of \$28,500,000, through the issuance of the Series 2014 school improvement refunding bonds.

The serial bonds consist of current interest bonds, par value \$2,720,000, and capital appreciation bonds, par value \$420,000. The current interest serial bonds were issued for a seven year period with a final maturity at December 1, 2017. The serial bonds mature on December 1 in each year 2011 through 2017 and bear interest rates ranging from 1.0 percent to 4.0 percent. The serial bonds are not subject to redemption prior to maturity.

The capital appreciation bonds mature on December 1, 2027 at a redemption price equal to 100% of the principal, plus accrued interest to the redemption date. The effective interest rate on the capital appreciation bonds is 6.305%. The accreted value at maturity for the capital appreciation bond is \$1,220,000. Total accreted interest of \$141,498 has been included in the statement of net position at June 30, 2015.

The QSCBs mature on December 1, 2026 in the amount of \$11,260,000. The QSCBs bear an interest rate of 5.068 percent. The District receives a direct payment subsidy from the United States Treasury equal to 100% of the lesser of the interest payments on the bonds or the federal tax credits that would otherwise have been available to the holders of the bonds. The District records this subsidy from the federal government in the general fund. The QSCBs are subject to optional redemption, on any date on or after December 31, 2020, and extraordinary optional redemption, at the sole discretion of the District, at a redemption price equal to 100% of the principal amount redeemed, plus accrued interest to the redemption date. On December 1 in each year 2020 through 2026, the District is required to make a mandatory deposit into a sinking fund that will provide for payment of the QSCBs upon maturity.

School Improvement Bonds - Series 1998

In 1998, the District issued \$24,500,000 in current interest general obligations bonds for the renovations of various school buildings. These bonds bear interest rates ranging from 3.65%-5.375%. Interest payments on the current interest bonds are due on June 1 and December 1 of each year. The final maturity stated in the issue is December 1, 2017. These bonds are paid from the bond retirement fund.

Compensated Absences

Compensated absences will be paid from the fund which the employee is paid which, for the District, is primarily the general fund and the food service fund (a nonmajor governmental fund).

Lease-Purchase Obligations

The lease-purchase obligations will be repaid from the general fund. See Note 8 for further detail on the District's lease-purchase obligations.

Net Pension Liability

The District's net pension liability is described in Note 15. The District pays obligations related to employee compensation from the fund benefitting from their service.

C. Legal Debt Margin

The Ohio Revised Code provides that voted net general obligation debt of the District shall never exceed 9% of the total assessed valuation of the District. The Code further provides that unvoted indebtedness shall not exceed 1/10 of 1% of the property valuation of the District. The Code additionally states that unvoted indebtedness related to energy conservation debt shall not exceed 9/10 of 1% of the property valuation of the District. The assessed valuation used in determining the District's legal debt margin has been modified by House Bill 530 which became effective March 30, 2006. In accordance with House Bill 530, the assessed valuation used in the District's legal debt margin calculation excluded tangible personal property used in business, telephone or telegraph property, interexchange telecommunications company property, and personal property owned or leased by a railroad company and used in railroad operations. The effects of these debt limitations at June 30, 2015, are a voted debt margin of \$20.4 million (including available funds of \$4.1 million) and an unvoted debt margin of \$0.7 million.

NOTE 13 - COMPENSATED ABSENCES

The criteria for determining vacation and sick leave benefits are derived from negotiated agreements, Board of Education policies and State laws. Teachers do not earn vacation. Support staff personnel assigned to work less than 240 days annually do not earn vacation. Support staff personnel assigned to work 240 days or more and managers earn annual vacation leave from 10 to 25 days, based on years of service. Administrators are entitled from 20 to 25 days of vacation leave annually, based on years of service or specific contractual terms. Administrators may not carry forward more than five vacation days, and those must be used by January 31st of the subsequent year.

CUYAHOGA COUNTY, OHIO**

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015**

NOTE 13 - COMPENSATED ABSENCES - (Continued)

All regular employees earn sick leave at a rate of one and one-fourth days per month. Support staff personnel and managers employed by the District for a minimum of two years, and eligible to retire pursuant to State statute, are entitled to severance benefits based on accumulated sick leave.

Teachers who resign with ten or more years of service or those who meet the requirements of Ohio Revised Code Section 124.39 - Section B may choose between one of two plans for their severance payment. Each plan offers a varying percentage of their sick leave balance ranging between 20% and 33% of their accumulated but unused sick leave and some plans offer an additional payment depending upon their years of service ranging between \$200 and \$1,800 for each year. Teachers may choose between plans for which they are eligible.

Classified non-union employees, with two or more years and who meet the requirements of ORC Section 124.39, are eligible for severance payments equal to 33% of their accumulated but unused sick leave to a maximum of 75 days.

Classified executive non-union secretaries who have been employed by the District for 30 years or who have reached their first year of eligibility to retire under the School Employees Retirement System rules may choose between one of two plans for their severance payment. Each plan offers a varying percentage of their sick leave balance ranging between 75% and 80% of their accumulated but unused sick leave depending upon years of service. Each plan also offers an additional payment depending upon their years of service ranging between \$200 and \$300 for each year of service. Classified executive non-union secretaries may choose between plans for which they are eligible.

Classified union employees who have been employed by the District for at least two years and who meet the requirements of ORC Section 124.39 may choose between one of three plans for their severance payment. Each plan offers a sick leave payment equal to 60% of their accumulated but unused sick leave up to a maximum number of days depending upon the plan chosen. In addition, employees with ten or more years of service are eligible for an additional payment depending upon their years of service ranging between \$50 and \$175 for each year of service with the District. Classified union employees may choose between plans for which they are eligible.

Administrators are eligible for severance payments equal to 33% of their accumulated but unused sick leave. Also, administrators will receive an amount equal to 30% of the administrator's current daily rate for each day of accumulated sick leave beyond 120 days as certified by the Treasurer's office. In addition, administrators shall receive a longevity payment equal to \$1,500 per year of employment as an administrator with the District if they retire.

NOTE 14 - RISK MANAGEMENT

A. Comprehensive

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. For fiscal year 2015, the District contracted with various insurance companies through the Ohio Schools Council insurance program. Netherlands Insurance provides property, inland marine and crime insurance coverage. There is a \$10,000 deductible on building and contents, along with a \$1,000 deductible for employee dishonesty insurance with a \$500 deductible for forgery/alteration and computer fraud. The boiler and machinery coverage is provided by Travelers Insurance Company. The coverage provides a \$50,000,000 limit and a \$1,000 deductible.

NOTE 14 - RISK MANAGEMENT - (Continued)

Liberty Mutual provides fleet and liability insurance. Automobile liability has a limit of \$1,000,000 per accident/occurrence and an equal amount of uninsured motorist coverage with a \$1,000 deductible for comprehensive and \$1,000 deductible for collision and replacement buses 10 years and newer. The general liability provides coverage with a limit of \$1,000,000 per occurrence and a \$2,000,000 per year aggregate limit. Coverage provided by these companies was as follows:

Coverage	Amount
Building and Contents- replacement cost	\$ 131,351,794
Boiler and Machinery	50,000,000
Automobile Liability	1,000,000
General Liability	
Per occurrence	1,000,000
General Aggregate	2,000,000
Umbrella	10,000,000

Settled claims have not exceeded this commercial coverage in any of the past three years. There have been no significant reductions in coverage from last year.

B. Group Health, Dental, Life and Vision Insurance

For fiscal year 2015, the District provided employee major medical, hospitalization and preventative care and prescription benefits through a self-insured program through the Suburban Health Consortium and administered by Medical Mutual of Ohio and Express Scripts, Inc. The Suburban Health Consortium (the "Consortium") is a legally separate entity organized under Ohio Revised Code Section 9.833 as a joint self-insurance pool (see Note 2.A.). The Consortium was established on October 1, 2001, formed by the Boards of Education of several school districts in northeast Ohio, for the purposes of maximizing benefits and/or reducing costs of group health, life, dental and/or other insurance coverage for their employees and the eligible dependents and designated beneficiaries of such employees.

This plan is provided through a PPO (preferred provider organization) with a co-insurance level of 90% subject to annual maximum amounts if they choose a network provider for services. The co-insurance level is 70% for non-network providers and is also subject to annual maximum amounts. The plan has a deductible of \$300 single/\$600 family for network services and \$300 single/\$600 family for non-network services. The deductible and co-insurance components, together, are subject to an annual out of pocket maximum amount. In addition, the plan required doctor's office, urgent care, emergency room and prescription co-pays. As of the plan year starting October 1, 2014, the District was responsible for 87% of the monthly funding rates (13% is employee portion of the funding rate contribution) of \$1,158.34 for family coverage and \$573.50 for single coverage for all full-time equivalent (FTE) staff. Any employee who is scheduled to work at a FTE below 1.0 but greater than 0.5 is eligible for this coverage, but they are required to pay the difference in premium based on the difference between 1.0 and their scheduled FTE on top of the aforementioned 13% employee premium contribution. The funding rate is generally paid by the fund that pays the salary for the employee.

**NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015**

NOTE 14 - RISK MANAGEMENT - (Continued)

The District also provides employee dental benefits through a fully insured insurance program administered by MetLife that offers different levels of coverage through two plan structures. One plan is based on UCR (usual, customary and reasonable) that offers a higher level of coverage than the other plan, which is a fee schedule plan that pays a predetermined amount for various covered procedures. These plans provide dental benefits with a \$50 family and \$25 single deductible per year. As of October 1, 2013, premium rates were \$119.75 for a family plan and \$35.97 for a single plan per employee per month for the UCR (“High”) plan for all certificated, classified and administrative staff. The District is responsible for 60% of these premiums for all employees who choose this option with exception of administrators for whom the District pays 100% of these premiums. The employee is responsible for the other 40%. As of October 1, 2013, premium rates were \$81.94 for a family plan and \$24.61 for a single plan per employee per month for the fee schedule (“Low”) plan for all certificated and classified staff who choose this option. The District is responsible for 80% of these premiums and the employee is responsible for the other 20% for all employees who choose this option. Any employee who is scheduled to work at a FTE below 1.0 but greater than 0.5 is eligible for this coverage, but they are required to pay the difference in premium based on the difference between 1.0 and their scheduled FTE on top of the 40% UCR plan/20% fee schedule plan employee premium contribution. The premium is generally paid by the fund that pays the salary for the employee.

A group life with accidental death and dismemberment insurance plan through MetLife is maintained for all employees (except Tutors) who are scheduled to work at least a 0.5 FTE basis. The dollar amount of coverage ranges from \$30,000 - \$50,000 and is based on an employee’s position within the District. The entire premium cost of \$0.10 per \$1,000 of coverage per month is paid by the District. The Superintendent and Treasurer are covered for higher limits at comparable rates.

A group vision plan is also offered by the District to all employees through United Health Care. Employees who elect this coverage are responsible for 100% of the monthly premium.

C. Workers’ Compensation Program

The District participates in the Ohio Schools Council Workers’ Compensation Group Rating Program (GRP), an insurance purchasing pool (Note 2.A.). The intent of the GRP is to achieve the benefits of a reduced premium for the District by virtue of its grouping and representation with other participants in the GRP. The worker’s compensation experience of the participating school districts is calculated as one experience and a common premium rate is applied to all school districts in the GRP. Each participant pays its worker’s compensation premium to the State based on the rate for the GRP rather than its individual rate. Total savings is then calculated and each participant’s individual performance is compared to the overall savings percentage of the GRP. A participant will then either receive money from or be required to contribute to the “equity pooling fund”. This “equity pooling” arrangement insures that each participant share equally in the overall performance of the GRP. Participation in the GRP is limited to school districts that can meet the GRP’s selection criteria. The firm of Sheakley Uniservice, Inc. provides administrative, cost control and actuarial services to the GRP.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 15 - DEFINED BENEFIT PENSION PLANS

A. Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the District’s proportionate share of each pension plan’s collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan’s fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the District’s obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions are financed; however, the District does receive the benefit of employees’ services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan’s board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan’s unfunded benefits is presented as a long-term *net pension liability* on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in *pension obligation payable* on both the accrual and modified accrual bases of accounting.

B. Plan Description - School Employees Retirement System (SERS)

Plan Description –District non-teaching employees participate in SERS, a cost-sharing multiple-employer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309. SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS’ fiduciary net position. That report can be obtained by visiting the SERS website at www.ohsers.org under Employers/Audit Resources.

NOTE 15 - DEFINED BENEFIT PENSION PLANS - (Continued)

Age and service requirements for retirement are as follows:

	Eligible to Retire on or before August 1, 2017 *	Eligible to Retire on or after August 1, 2017
Full Benefits	Any age with 30 years of service credit	Age 67 with 10 years of service credit; or Age 57 with 30 years of service credit
Actuarially Reduced Benefits	Age 60 with 5 years of service credit Age 55 with 25 years of service credit	Age 62 with 10 years of service credit; or Age 60 with 25 years of service credit

* Members with 25 years of service credit as of August 1, 2017, will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-of-living adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS’ Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System’s funds (Pension Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2015, the allocation to pension, death benefits, and Medicare B was 13.18 percent. The remaining 0.82 percent of the 14 percent employer contribution rate was allocated to the Health Care Fund.

The District’s contractually required contribution to SERS was \$601,369 for fiscal year 2015. Of this amount \$56,383 is reported as pension and postemployment benefits payable.

C. Plan Description - State Teachers Retirement System (STRS)

Plan Description – District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS’ fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at www.strsoh.org.

NOTE 15 - DEFINED BENEFIT PENSION PLANS - (Continued)

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2013, or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five years of qualifying service credit, or age 55 with 25 years of service, or 30 years of service regardless of age. Age and service requirements for retirement will increase effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five years of service on August 1, 2026.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The statutory maximum employee contribution rate was increased one percent July 1, 2014, and will be increased one percent each year until it reaches 14 percent on July 1, 2016. For the fiscal year ended June 30, 2015, plan members were required to contribute 12 percent of their annual covered salary. The District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2015 contribution rates were equal to the statutory maximum rates.

NOTE 15 - DEFINED BENEFIT PENSION PLANS - (Continued)

The District's contractually required contribution to STRS was \$2,240,459 for fiscal year 2015. Of this amount, \$391,524 is reported as pension and postemployment benefits payable.

D. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Proportionate share of the net pension liability	\$ 7,854,179	\$ 36,941,222	\$ 44,795,401
Proportion of the net pension liability	0.15519200%	0.15187860%	
Pension expense	\$ 458,344	\$ 1,432,971	\$ 1,891,315

At June 30, 2015, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>SERS</u>	<u>STRS</u>	<u>Total</u>
Deferred outflows of resources			
Differences between expected and actual experience	\$ 66,847	\$ 355,639	\$ 422,486
District contributions subsequent to the measurement date	<u>601,369</u>	<u>2,240,459</u>	<u>2,841,828</u>
Total deferred outflows of resources	<u>\$ 668,216</u>	<u>\$ 2,596,098</u>	<u>\$ 3,264,314</u>
Deferred inflows of resources			
Net difference between projected and actual earnings on pension plan investments	<u>\$ 1,274,755</u>	<u>\$ 6,834,266</u>	<u>\$ 8,109,021</u>

\$2,841,828 reported as deferred outflows of resources related to pension resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2016.

E. Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2014, are presented below:

Wage Inflation	3.25 percent
Future Salary Increases, including inflation	4.00 percent to 22 percent
COLA or Ad Hoc COLA	3 percent
Investment Rate of Return	7.75 percent net of investments expense, including inflation
Actuarial Cost Method	Entry Age Normal

NOTE 15 - DEFINED BENEFIT PENSION PLANS - (Continued)

For post-retirement mortality, the table used in evaluating allowances to be paid is the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables are used for the period after disability retirement.

The most recent experience study was completed June 30, 2010.

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Cash	1.00 %	0.00 %
US Stocks	22.50	5.00
Non-US Stocks	22.50	5.50
Fixed Income	19.00	1.50
Private Equity	10.00	10.00
Real Assets	10.00	5.00
Multi-Asset Strategies	15.00	7.50
Total	<u>100.00 %</u>	

Discount Rate The total pension liability was calculated using the discount rate of 7.75 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.75 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

NOTE 15 - DEFINED BENEFIT PENSION PLANS - (Continued)

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.75 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75 percent), or one percentage point higher (8.75 percent) than the current rate.

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)

F. Actuarial Assumptions - STRS

The total pension liability in the June 30, 2014, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75 percent
Projected salary increases	2.75 percent at age 70 to 12.25 percent at age 20
Investment Rate of Return	7.75 percent, net of investment expenses
Cost-of-Living Adjustments (COLA)	2 percent simple applied as follows: for members retiring before August 1, 2013, 2 percent per year; for members retiring August 1, 2013, or later, 2 percent COLA paid on fifth anniversary of retirement date.

Mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89 and not set back from age 90 and above.

Actuarial assumptions used in the June 30, 2014, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

The 10 year expected real rate of return on pension plan investments was determined by STRS' investment consultant by developing best estimates of expected future real rates of return for each major asset class.

The target allocation and best estimates of geometric real rates of return for each major asset class are summarized as follows:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic Equity	31.00 %	8.00 %
International Equity	26.00	7.85
Alternatives	14.00	8.00
Fixed Income	18.00	3.75
Real Estate	10.00	6.75
Liquidity Reserves	1.00	3.00
Total	<u>100.00 %</u>	

Discount Rate The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2014. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2014. Therefore, the long-term expected rate of return on pension plan investments of 7.75 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2014.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.75 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.75 percent) or one-percentage-point higher (8.75 percent) than the current rate:

	1% Decrease (6.75%)	Current Discount Rate (7.75%)	1% Increase (8.75%)
District's proportionate share of the net pension liability	\$ 52,885,387	\$ 36,941,222	\$ 23,457,824

G. Social Security System

Effective July 1, 1991, all employees not otherwise covered by the SERS/STRS Ohio have an option to choose Social Security or the SERS/STRS Ohio. As of June 30, 2015 certain members of the Board of Education have elected Social Security. The District's liability is 6.2 percent of wages paid.

NOTE 16 - POSTEMPLOYMENT BENEFITS

A. School Employees Retirement System

Health Care Plan Description - The District contributes to the SERS Health Care Fund, administered by SERS for non-certificated retirees and their beneficiaries. For GASB 45 purposes, this plan is considered a cost-sharing, multiple-employer, defined benefit other postemployment benefit (OPEB) plan. The Health Care Plan includes hospitalization and physicians' fees through several types of plans including HMO's, PPO's, Medicare Advantage, and traditional indemnity plans as well as a prescription drug program. The financial report of the Plan is included in the SERS Comprehensive Annual Financial Report which can be obtained on SERS' website at www.ohsers.org under Employers/Audit Resources.

Access to health care for retirees and beneficiaries is permitted in accordance with Section 3309 of the Ohio Revised Code. The Health Care Fund was established and is administered in accordance with Internal Revenue Code Section 105(e). SERS' Retirement Board reserves the right to change or discontinue any health plan or program. Health care is financed through a combination of employer contributions and retiree premiums, copays and deductibles on covered health care expenses, investment returns, and any funds received as a result of SERS' participation in Medicare programs. Active employee members do not contribute to the Health Care Plan. Retirees and their beneficiaries are required to pay a health care premium that varies depending on the plan selected, the number of qualified years of service, Medicare eligibility and retirement status.

Funding Policy - State statute permits SERS to fund the health care benefits through employer contributions. Each year, after the allocation for statutorily required basic benefits, the Retirement Board allocates the remainder of the employer contribution of 14 percent of covered payroll to the Health Care Fund. For fiscal year 2015, 0.82 percent of covered payroll was allocated to health care. In addition, employers pay a surcharge for employees earning less than an actuarially determined minimum compensation amount, pro-rated according to service credit earned. For fiscal year 2015, this amount was \$20,450. Statutes provide that no employer shall pay a health care surcharge greater than 2 percent of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5 percent of the total statewide SERS-covered payroll for the health care surcharge. For fiscal year 2015, the District's surcharge obligation was \$77,862.

The District's contributions for health care for the fiscal years ended June 30, 2015, 2014, and 2013 were \$113,122, \$80,846, and \$89,165, respectively. For fiscal year 2015, 91.17 percent has been contributed, with the balance being reported as pension and postemployment benefits payable. The full amount has been contributed for fiscal years 2014 and 2013.

B. State Teachers Retirement System

Plan Description - The District participates in the cost-sharing multiple-employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS. Ohio law authorizes STRS to offer this plan. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS which can be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

NOTES TO THE BASIC FINANCIAL STATEMENTS

NOTE 16 - POSTEMPLOYMENT BENEFITS - (Continued)

Funding Policy – Ohio Revised Code Chapter 3307 authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS. Active employee members do not contribute to the Health Care Plan. All benefit recipients, for the most recent year, pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For fiscal year 2015, STRS did not allocate any employer contributions to post-employment health care. The District's contributions for health care for the fiscal years ended June 30, 2015, 2014, and 2013 were \$0, \$157,374, and \$157,009, respectively. The full amount has been contributed for fiscal years 2015, 2014 and 2013.

NOTE 17 - CONTINGENCIES

A. Grants

The District receives significant financial assistance from numerous federal, State and local agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the District. However, in the opinion of management, any such disallowed claims will not have a material effect on the financial position of the District.

B. Litigation

The District is party to legal proceedings pertaining to the District's construction projects. The District is withholding payment for certain vendors for non-performance or pending claims. District management believes that ultimate outcome of this litigation will result in either no further payments required or recovery of monies previously paid. Regardless, management is of the opinion that the ultimate outcome will not have a material effect, if any, on the financial condition of the District.

C. Foundation Funding

District Foundation funding is based on the annualized full-time equivalent (FTE) enrollment of each student. Effective for the 2014-2015 school year, traditional Districts must comply with minimum hours of instruction, instead of a minimum number of school days each year. The funding formula the Ohio Department of Education (ODE) is legislatively required to follow will continue to adjust as enrollment information is updated by the District, which can extend past the fiscal year-end. As of the date of this report, ODE has not finalized the impact of enrollment adjustments to the June 30, 2015 Foundation funding for the District; therefore, the financial statement impact is not determinable at this time. ODE and management believe this will result in either a receivable to or liability of the District.

NOTE 18 - BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance on the basis of GAAP, the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts and disbursements.

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE 18 - BUDGETARY BASIS OF ACCOUNTING - (Continued)

The statement of revenue, expenditures and changes in fund balance - budget and actual (non-GAAP budgetary basis) presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are that:

- (a) Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);
- (b) Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);
- (c) In order to determine compliance with Ohio law, and to reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to assigned or committed fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis);
- (d) Advances-in and advances-out are operating transactions (budget basis) as opposed to balance sheet transactions (GAAP basis); and,
- (e) Some funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis).

The adjustments necessary to convert the results of operations for the year on the budget basis to the GAAP basis for the general fund is as follows:

Net Change in Fund Balance

	<u>General fund</u>
Budget basis	\$ 180,206
Net adjustment for revenue accruals	1,203,326
Net adjustment for expenditure accruals	(493,226)
Net adjustment for other sources/uses	(23,898)
Funds budgeted elsewhere	7,925
Adjustment for encumbrances	783,372
GAAP basis	\$ 1,657,705

Certain funds that are legally budgeted in separate special revenue funds are considered part of the general fund on a GAAP basis. These includes unclaimed monies fund, the uniform school supplies fund, the Beach building fund, the building rotary fund and the public school support fund.

NOTE 19 - SET-ASIDES

The District is required by State law to annually set-aside certain general fund revenue amounts, as defined by statutory formula, for the acquisition and construction of capital improvements. Amounts not spent by the end of the fiscal year or offset by similarly restricted resources received during the year must be held in cash at fiscal year-end. This amount must be carried forward to be used for the same purpose in future years. Expenditures exceeding the set-aside requirement may not be carried forward to the next fiscal year.

ROCKY RIVER CITY SCHOOL DISTRICT

FUND DESCRIPTIONS - NONMAJOR SPECIAL REVENUE FUNDS

Special revenue funds are established to account for revenues from specific sources which legally, or otherwise, are restricted to expenditures for specific purposes. A description of the District's special revenue funds follows:

Food Service Fund

This fund accounts for the financial transactions related to the food service operations of the District.

Special Trust Fund

A fund used to account for the proceeds of specific revenue sources, except for state and federal grants that are legally restricted for specified purposes.

Other Grants Fund

A fund used to account for the proceeds of specific revenue sources, except for state and federal grants that are legally restricted for specified purposes.

District Managed Activity Fund

A fund provided to account for monies for those student activity programs which have student participation in the activity but do not have student management of the programs.

Auxiliary Services Fund

A fund provided to account for monies which provide services and materials to pupils attending non-public schools within the School District.

Data Communications Fund

A fund provided to account for money appropriated for Ohio Educational Computer Network Connections.

Miscellaneous State Grants Fund

This fund accounts for various monies received from state agencies which are not classified elsewhere.

Race to the Top

To account for federal funds received from the Race to the Top grant

Title VI-B Fund

A fund provided to account for federal monies used to assist schools in the identification of handicapped children, development of procedural safeguards, implementation of least restrictive alternative service patterns, and provision of full educational opportunities to handicapped children at the preschool, elementary, and secondary levels.

Title III Fund

A fund provided to account for federal monies used to assist the School District in meeting the special needs of children of limited English proficiency.

Title I Fund

To account for State of Ohio and federal grants that provide financial assistance to meet the special needs of educationally deprived children.

Preschool Disability Fund

To account for monies received for the improvement and expansion of services for handicapped children ages three through five years.

Title II-A Fund

To account for grant monies used for the hiring of additional teachers.

FUND DESCRIPTIONS - NONMAJOR SPECIAL REVENUE FUNDS - (Continued)

The following funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis). These funds are not included in the combining statements for the nonmajor special revenue funds since they are reported in the general fund (GAAP basis); however, the budgetary schedules for these funds are presented in this section.

Unclaimed Monies Fund

This fund accounts for the unclaimed monies within the District. These monies must be held for a period of time, after that time period passes, the monies may be returned to the general fund.

Uniform School Supplies Fund

This fund accounts for the purchase and sale of school supplies for use in the District. Profits derived from such sales are used for school purposes or activities connected with the school.

Beach Building Fund

This fund accounts for the revenues and expenditures related to the operation of the Beach School facility that is leased to outside educational and service organizations for the benefit of the school community at-large.

Building Rotary Fund

This fund accounts for curricular and related activities (e.g. field trips) within a school building that are paid for mainly by student fees.

Public School Support Fund

A fund provided to account for specific local revenue sources (i.e. profits from vending machines, sales of pictures, etc.), that are restricted to expenditures for specified purposes approved by board resolution. Such expenditures may include curricular and extra-curricular related purchases.

ROCKY RIVER CITY SCHOOL DISTRICT

FUND DESCRIPTION - NONMAJOR CAPITAL PROJECTS FUND

The capital projects fund accounts for financial resources to be used for the construction or acquisition of major capital facilities (other than those financed by proprietary funds and trust funds). A description of the District's nonmajor capital project fund follows:

Permanent Improvement Fund

A fund provided to account for all transactions related to the acquiring, construction, or improving of such permanent improvements.

Building Fund

This building fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays including the acquisition or construction of capital facilities or other capital assets.

FUND DESCRIPTIONS - FIDUCIARY FUNDS**

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into two classifications: private purpose trust and agency funds. Private purpose trust funds are used to account for assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the District's own programs. Agency funds are purely custodial (assets equal liabilities) and thus do not involve the measurement of results.

Private-Purpose Trust Fund

Special Trust Fund

A fund provided to account for monies set aside from endowments for scholarships for students enrolled in the District. The principal and income from such a fund may be expended.

Agency Funds

OHSAA Tournaments

This fund reflects resources that are collected for various tournaments and remitted to the Ohio High School Athletic Association (OHSAA).

Student Managed Activities Fund

This fund accounts for those student activity programs which have student participation in the activity and have students involved in the management of the program.

* During fiscal year 2014, the District fully implemented a new automated work order system, so the 2014 amount reflects that total. In addition to processing these work orders, the facilities department processes numerous routine maintenance-type jobs as well as emergency requests that would not be tracked through a formal work order.

** The District does not operate a lunch program for its two elementary buildings, but does serve milk to students in these

Note: Year of original construction is in parentheses. Any increases in square footage and capacity are the result of new construction, renovations and additions.

Capacity is expressed in the estimated number of students a building is equipped to handle and is subject to changes in federal, state or local standards and programming as well as modifications to physical building characteristics as needed.

* Only a small portion of this building was being utilized for pre-kindergarten special education students through the 2004-2005 school year. This program was moved to Goldwood Primary School of the 2005-2006 school year. A portion of this building was leased out to a private pre-school through the 2011-2012 school year, but that lease has terminated as of 6/30/12. As of July 2011, the majority of this building is being utilized as the District's Board of Education/Administrative Offices in place of the previous location which was demolished as part of the District's construction and renovation project that commenced in 2010.

** This building has not been needed for pre-kindergarten through 12 educational purposes during the last 10 years and is currently being leased to the Cleveland Clinic Health System for use as a healthcare facility.

*** For 2015, this number does not reflect students placed in another district or outside education facility.
