Teachers of the Month

May, 2015

It is not always the case that we can offer collective recognition to a team of teachers for its successful endeavors. However, this month is an exception. Now, in May, 2015, we recognize three wonderful teachers and thank them for their talents, skills, patience, hard work, and motivation.

This year, Rocky River High School held the honor of hosting the district-wide Art Show. This was incredibly easy for most of us. We were called upon to sit back and watch it happen. While a great deal of activity appeared just before the late-April opening, the reality was that months of planning and effort… much of it in high detail… resulting in the wondrous place that was created here by our three honorees. Yes, we know that art teachers from other schools and even some parents had key roles, but it was these three that pulled it off. Pulled it off?!

We all experienced a week long exhibit of the visual arts like we’ve never seen before in our school. We were able to associated visual artistic skills and talents with students we see every day in other capacities. Our three honorees were not looking for credit, but the exhibit gave witness to their outstanding teaching. We thank these three for going above-and-beyond the norm in having transformed RRHS into a visual stunner!

With pride then, we present three $50 gift certificates from Salmon Dave’s Restaurant, and offer our thanks for its support, to recognize the May Teachers of the Month:

Jennifer Bueck, John Rocco, Patty Tobin
